RE: Property located at Jonathan's Ridge Rd.
FILE: 6242A
Dear Sir:

At your request, a field investigation was conducted on the property designated above for the purpose of determining site suitability for the installation of a ground absorption sewage disposal system. Results of the investigation revealed that the lot contains soils which have been classified as PROVISIONALLY SUITABLE in accordance with the provisions of 10 NCAC 10A .1900. A copy of the Site Evaluation Report (Serial Number 16548) deliniating the soil types and their respective classifications is enclosed.

While this classification indicates the site is acceptable for the installation of a septic tank system, no specific system or plans have been approved. The area available for such an installation may impose limitations on the size and/or type construction permitted on the lot. Specific plan approval will be provided upon submission of an Application For An Improvement Permit with an ACCURATELY dimensioned plot plan detailing the location of current and/or proposed buildings, wells and sewage disposal systems and determination that the area is adequate to accomodate the proposed construction.

Please note that this classification may be revoked if any filling, grading or construction (including the drilling of a well) is performed on the lot which in the opinion of this Department renders any area previously designated suitable for system installation, unsuitable. Futhermore, this approval may be revoked should any changes occur in the regulations under which it was granted, if such changes would have prevented its approval had they been in effect on the date of issuance.

If there are any questions concerning this matter, do not hesitate to contact me.

Very truly yours,

Gene Vaughan, R.S., Supervisor

Health Department

Dear Sir/Madam:

A request for repair to your septic system has come to our attention.

In addition to the enclosed application form, there is information that we will need in order to assist us in determining the best means of repair to your system.

Please supply the following information, if possible, along with your completed, signed, and dated application:

1) Tax number (account number from tax bill). 1997-206591

2) Provide the name of the original property owner. JOHNELL KINSEY

3) Do you have visible sewage on the surface of the ground? NO, wet spot at end of drain line

4) Is septic water backing up into the house -- gurgling pipes and/or slow draining toilets, etc? NO

5) Is there a separate wastewater line from your washing machine? maybe Dishwasher? NO

6) Has your septic tank ever been pumped out? If so, approximately when? NO

7) Has there been any other type of maintenance or repair done to your system? If so, what was done, and approximately when? NO

8) Approximately what year was your septic system installed? 1991

9) Have you had any other plumbing leaks (dripping faucets/leaking toilets, etc)? NO

Upon receipt of your repair application, an Environmental Health Specialist will contact you to discuss your septic problem. If it is determined that a repair to the system is needed, you will need to contact a registered septic contractor -- if you do not know of one, check the yellow pages of your telephone directory. The contractor will, in return, contact our office to set up an appointment with an Environmental Health Specialist to meet with you on the site to assess the problem and make arrangements to repair the septic system if necessary.

By complying with our requests and supplying the needed information in its entirety, you will be helping us to serve you as quickly as possible. Please mail or fax information to MCHD. Fax # 336-6894.

Should you have questions concerning the requested information, please feel free to call us at 336-5102.
