PLOT PLAN

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that portion of the lot as indicated on the above plot. The permeability rate determined by the investigation was PROVISIONALLY SUITABLE. The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A permit to install, construct, alter or repair the septic system [illegible] from the Mecklenburg County Department of Environmental Health prior to the beginning of any construction of [illegible] of the wastewater treatment system on the said lot.
2. The size of the septic tank wastewater treatment system [illegible] be determined by the Mecklenburg County Department of Environmental Health [illegible] permeability rate obtained above, and on the size and type of building [illegible].
3. This approval [illegible] system is installed on the immediate and indicated as acceptable for system installation on the above plot.
4. This approval [illegible] in the opinion of the Mecklenburg County Department of [illegible] indicated as acceptable for system installation [illegible].

This approval is granted [illegible] and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
