Dear Mr. White:

This letter is to serve as notice that the State required inspection of your Type IIIb wastewater treatment and disposal system has been performed. The results of this inspection are enclosed.

Our records indicate that the $85.00 fee for this inspection has not been paid. You have been mailed 3 notices, as well as a letter of explanation, regarding the maintenance inspection and the associated fee. At this time our office has no choice but to implement legal action against you, for nonpayment of fees imposed under North Carolina General Statute 130A-39G. A Criminal Summons will be prepared in your name and filed with the magistrate's office within the next two weeks. In the event we receive your payment before a Criminal Summons is filed, legal action will not be pursued.

If you have any questions regarding this letter or the enclosed inspection report you may contact me at 704-336-5568.

Sincerely,

L.B. Thompson, Jr. R.S.

Dear Mr. White:

This letter is being sent to all home/business owners in Mecklenburg County with septic tank systems that utilize pumps. In 1990 the North Carolina Administrative Code governing septic tank systems was amended to require routine maintenance and inspection of certain septic tank systems. Research conducted on septic tank systems has shown that properly maintained systems perform better and protect the home/business owner's investment. These State rule changes required local health departments to perform additional inspections without additional resources. During the 1998-99 budget hearings, the Mecklenburg County Board of County Commissioners (BOCC) approved user fees to offset costs and to allow the local health department to comply with mandatory enforcement requirements in the State regulations.

Since you have a pump system, these new rules and fee requirements affect you. The fee is $85.00 and is due upon receipt of this notice. We will visit your property and make assessments and recommendations for the continued efficient operation of your septic tank system. In addition, if you have a well, a bacterial sample will be collected to help assess the quality of your water supply source. The process, including fee assessment, will be repeated every five (5) years. The fee amount may change in the future.

We are excited about the interest and support demonstrated by the BOCC. Past performance in this area was more enforcement oriented rather than supportive. One of our goals is to establish our department as a resource to you to aid and assist you with this and related public health concerns. The inspection program and the water analysis are important to the health of you and your family. This is a very important initiative intended to protect the public's health while improving and preserving our groundwater resources.

Your prompt fee payment will activate our inspection process. Your comments and questions regarding this matter are encouraged and welcomed.

Sincerely,

L. B. Thompson, Jr. R.S.

Dear Sir/Madam:

A request for repair to your septic system has come to our attention.

In addition to the enclosed application form, there is information that we will need in order to assist us in determining the best means of repair to your system.

Please supply the following information, if possible, along with your completed, signed, and dated application:

1) Tax number (account number from tax bill).
   139 - 274 - 64

2) Provide the name of the original property owner.

3) Do you have visible sewage on the surface of the ground?
   The ground is wet some type of seepage through ground

4) Is septic water backing up into the house -- gurgling pipes and/or slow draining toilets, etc?
   NO

5) Is there a separate wastewater line from your washing machine? Dishwasher?
   NO

6) Has your septic tank ever been pumped out? If so, approximately when?
   NO

7) Has there been any other type of maintenance or repair done to your system? If so, what was done, and approximately when?
   NO

8) Approximately what year was your septic system installed?
   Last year march 1995

9) Have you had any other plumbing leaks (dripping faucets/leaking toilets, etc)?
   NO

Upon receipt of your repair application, an Environmental Health Specialist will contact you to discuss your septic problem. If it is determined that a repair to the system is needed, you will need to contact a registered septic contractor -- if you do not know of one, check the yellow pages of your telephone directory. The contractor will, in return, contact our office to set up an appointment with an Environmental Health Specialist to meet with you on the site to assess the problem and make arrangements to repair the septic system if necessary.

By complying with our requests and supplying the needed information in its entirety, you will be helping us to serve you as quickly as possible. Please mail or fax information to MCHD. Fax # 336-6894.

Should you have questions concerning the requested information, please feel free to call us at 336-5102.

Dear Mr. Gibson:

Receipt of the plans and specifications for a conventional system of sewage disposal for the above property is hereby acknowledged. Upon receipt of the information, a review was made of the material on file and a site evaluation was conducted. The plan was then reviewed in conjunction with provisions of 15NCAC 18A, .1900, "Laws and Rules for Sanitary Sewage Collection , Treatment and Disposal". Our comments are listed below:

.1945 AVAILABLE SPACE
(a) Sites shall have sufficient available space to permit the installation and proper functioning of ground absorption sewage treatment and disposal systems, based upon the square footage of nitrification field required for the application rate determined in accordance with these rules.

For these reasons, the plans as submitted are disapproved. Possible ways to develop the site includes a reduction of daily design flow, moving the house towards the rear of the lot, or acquiring additional property through deed or easement.

Please be advised that you have the right to an informal review by this Department and the right of appeal under G.S. 130A-24.

Dear Mr. Hucks:

Re: 8543 Clear Meadow Lane
File: 732B/8603A (Tax Parcel No. 139-274-64)

At your request an inspection was made at the above referenced property to facilitate the issuance of an Operation Permit for the sewage treatment and disposal system. During the inspection it was found that the following items did not meet the regulations set forth in the "Laws and Rules for Sewage Treatment and Disposal Systems, 15A NCAC 18A .1900;.1952 Septic Tank, Dosing, Dosing Tank and Lift Station Design." Our comments follow:

1) (6) Pump and control circuits shall be provided with manual circuit disconnects within a watertight, corrosion-resistant, outside enclosure (NEMA 4X or equivalent) adjacent to the pump tank, securely mounted at least 12 inches above the finished grade. The pump(s) shall be manually operable without requiring the use of special tools or entrance into the tank for testing purposes. Conductors shall be conveyed to the disconnect enclosure through water proof, gasproof, and corrosion-resistant conduits, with no splices or junction boxes provided inside the tank. Wire grips, duct seal, or other suitable material shall be used to seal around wire and wire conduit openings inside the pump tank and disconnect enclosure.

2) (9) The pump tank shall have a properly functioning high-water alarm. The alarm circuit shall be supplied ahead of any pump overload and short circuit protective devices. The alarm shall be audible and visible by system users and weatherproof if installed outdoors in an enclosure (NEMA 4X or equivalent).

The above mentioned items must be installed and inspected prior to the Operation Permit being issued. The Operation Permit is <u>required</u> for the Certificate of Occupancy and the permanent electric hook-ups. Please schedule the inspections at least five (5) working days in advance to ensure no delays in the Operation Permit issuance.

Please call me at 336-5568 to discuss any question you may have concerning this matter.

ACKNOWLEDGEMENT OF REQUEST BY OWNER FOR RECLASSIFICATION OF SITE FROM "UNSUITABLE" TO "PROVISIONALLY SUITABLE" UNDER 15A NCAC 18A .1956, .1957, OR .1969 OF THIS SECTION.

The undersigned Elmer Reece Gibson owner of property located at 8543 Clear Meadows, ("the site") and described in an instrument recorded in Book 7159 at Page 484, Mecklenburg Public Registry, hereby acknowledges that he applied to the Mecklenburg County Health Department (the Department") for a permit to install a septic tank sewage disposal system on the site; that the Department evaluated the site for suitability for such a system in accordance with the regulations promulgated by the North Carolina Commission for Health Services as 15A NCAC 18A .1900 et seq; that the Department originally classified the site as "unsuitable" pursuant to the standards set forth in the regulations; that the undersigned requested pursuant to 15A NCAC 18A .1948(d) that the Department reclassify the site as "provisionally suitable" in light of the particular septic tank system proposed by the undersigned; that the Department considered various studies, data, and other information which indicate to the Department that the septic tank system proposed by the undersigned can reasonably be expected to function satisfactorily and thus that the findings specified in 15A NCAC 18A .1958(d)(1), (2), and (3) can be made; and that the Department therefore reclassified the site as "provisionally suitable" and issued on appropriate permit for such proposed septic tank system.

The undersigned further acknowledges that the proper design, construction, operation and maintenance of such septic tank system is his responsibility and that neither the Department nor its officials, employees, or agents warrant or guarantee that the said system installed pursuant to the permit issued by the Department *will function* in a satisfactory manner for any given period of time or that the Department, its officials, employees or agents assume any liability for any damages of any kind which are caused, or which may be caused, by a malfunction of such system.

The undersigned further agrees for himself, his heirs and assigns that he shall indemnify and hold harmless the Department, its employees, and officials, as well as Mecklenburg County and its employees and officials, for any damages or other claims of any person or persons whatsoever arising out of the installation, operation, or failure of said septic tank system.

The undersigned further agrees for his heirs and assigns that, in the event any septic tank system installed under authority of the aforesaid permit falls to perform adequately in any respect, he will take whatever measures are required to correct same; or if such is impossible he will discontinue use of said system immediately.

Use of the singular masculine pronoun forms herein shall be deemed to also include the plural and feminine forms as the context may require.

This document shall be placed on the public records of the Register of Deeds of Mecklenburg County and indexed therein under the *Grantor Index in the name or* names of the undersigned, and the foregoing acknowledgements shall henceforth be binding on all persons claiming any right, title, or interest in the site.

Dear Mr. Gibson:

At your request, a field investigation was conducted on the property designated above for the purpose of determining site suitability for the installation of a ground absorption sewage disposal system. The results of this investigation showed the property to be classified UNSUITABLE for the installation of such a system.. A copy of the site evaluation report (Serial No. 12907) is enclosed for your information.

State regulations provide that sites originally classified unsuitable may [illegible] the installation of alternate or modified sewage disposal systems provided the requirements of 15A NCAC 18A .1957 (c) are met. A reprint of this section is enclosed for your information.

Should you desire to file for permission to install an alternate or modified sewage treatment system on the property, please submit an Application for an Improvement Permit with an accurately dimensioned plot plan detailing the location of current and/or proposed buildings, wells and sewage disposal systems to this office. They will be reviewed, and if it is determined that the proposed system may reasonably be expected to function satisfactorily, an Improvement Permit will be issued by the Department upon completion by you, of a formal request for lot reclassification.

If you need any assistance, please feel free to call Mr. Bill Narlin at 336-5574.

Sincerely,

Kelly Randall

OVERALL CONDITION AND OPERATION OF SYSTEM:

No problems detected with system operation at time of inspection.

No effluent observed on ground surface at time of inspection.

SUMMARY OF REPAIRS REQUIRED AT THIS TIME:

1. If tanks have not been serviced in the past 5 years, have both tanks (septic & pump) pumped out to remove excess solids.

***REPAIR WITHIN N/A DAYS.**

SYSTEM MAINTENANCE/IMPROVEMENTS REQUIRED:

*The MCHD recommends having the tanks (septic & dosing) pumped out every 3 to 5 years to remove excess solids.

1. Maintain vegetation on drain field. Area should be cleared of large vegetation and mowed annually.
2. Repair cracks in concrete riser and lid on pump tank.

1. ESTABLISHMENT:			
Type, size, and sewage flow in accordance with permit?	☒	☐	
2. COLLECTION SYSTEM:			
No evidence of leaks into or out from sewer lines/manholes?	☐	☐	
Free of blockages/solids buildup in lines or manholes?	☐	☐	
3. TANKAGE (Grease Traps/Lift Stations/Septic/Dosing Tanks):			
Tank risers accessible and surface water diverted?	☑	☐	- Riser over pump tank is cracked but there appears to be no infiltration
Tanks and access manholes structurally sound, watertight?	☐	☑	
Sanitary tee(s) in good working condition?	☑	☐	- Pump tank contains an average of 6" of suspended solids - time to pump both of the tanks out. The suspended solids are what clogs the soils pores and causes premature system failure.
Tanks pumped, cleaned out as needed?	☐	☑	
4. RAW SEWAGE LIFT STATION (if present):			
Required pumps present, operating, and cycling properly?	☑	☐	
High-water alarm present and operating properly?	☐	☐

DIVISION OF ENVIRONMENTAL HEALTH

INSTRUCTIONS

Purpose: Article 11 of Chapter 130A requires the Commission for Health Services to adopt rules governing the design, construction, and operation of on-site wastewater systems. 15A NCAC 18A .1937 specifies that the local health department shall determine whether systems with an Operation Permit are operating properly at a frequency specified in Rule .1961, Table V(a), and that systems which exceed 3,000 gallons per day and other systems which are required to be designed by a professional engineer shall be reinspected annually. This form is developed to be used in making inspections of engineered subsurface wastewater systems.

Preparation: Local environmental health specialists shall complete the form every time they conduct an inspection. Prepare an original and two copies for:

1. Original to be left with the responsible person.
2. Copy for the local health department.
3. Copy for the On-Site Wastewater Section, Division of Environmental Health.

In the event the permit is suspended or revoked, complete the portion above.

Disposition: This form may be destroyed in accordance with Standard 7, Inspection Records, of the *Records Disposition Schedule* published by the N.C. Division of Archives and History.

Additional forms may be ordered from: On-Site Wastewater Section
