PLOT PLAN

The [illegible] certifies that [illegible] the Mecklenburg County Health Department [illegible] in that portion of the lot indicated [illegible]

The percolation test was run *60 min/in. This lot is approved for the installation of a [illegible] absorption effluent disposal system. The following conditions are required:

1. A permit must be obtained from the Mecklenburg County Health Department before any construction of the septic tank system on the said lot.
2. The size of the septic tank system and the area of the absorption lines shall be determined by the Health Department at the time the permit is issued and will be based on the size and type of building contracted for.
3. The septic tank shall be installed in the general area where the percolation test was run.
4. Any future additions, alterations or repair to any portion of this sewage disposal system, including the septic tank, lines or drainage area, must be performed on the lot which is shown on this plot plan. Failure to obtain approval for such additions, alterations or repairs may result in the system becoming unsuitable for the installation of a sewage disposal system.

This [illegible] the Mecklenburg County Sanitary Code and the rules and regulations governing [illegible] the Mecklenburg County Board of Health which were in effect at the time the application was made. Any changes in the future prior to the completion of the sewage disposal system [illegible] this application would not have been granted if the new [illegible] been in effect on the date of application.

*Results Determined by Soil Analysis

MAP BOOK NO PAGE NO

The above specified lot is approved by the Mecklenburg County Department of Environmental Health for the installation of one individual septic tank system with subsurface, soil absorption, effluent discharge based on the soil investigation on an on-site inspection of the said lot, and upon the information supplied in the "Application for an Installation, Construction, Alteration and/or Repair Permit", number 8414 This approval is subject to the following terms and conditions

1. That the septic tank-soil absorption field be installed, constructed, altered and/or repaired in the same area where the soil investigation was run

2. That an "Application for Construction, Alteration and/or Repair Permit" be issued and in full force and effect when the system is installed, constructed, altered and/or repaired and that the system be installed in accordance with same

This approval must be presented to the building inspection department prior to the review by the plans examiner when the system is to be installed in order that the soil type may be determined and the proper permit may be issued. The Application for Installation, Construction, Alteration, and/or Repair Permit must be submitted to verify that the septic tank system is being installed on the lot approved and required and in accordance with the Installation, Construction, Alteration, and/or Repair Permit
