Re: Property located at Ramah Church Road, SIR 21528, TC 011-013-27

Dear Sir:

At your request a soils investigation was conducted on the property designated above. Results of this investigation showed the site to be classified as unsuitable under criteria as set forth in Section .1900 of the North Carolina Administrative Code, Title 10, Department of Human Resources, Chapter 10, Division of Health Services; Sanitary Engineering Section, Subchapter 10A, Sanitation.

The soil on this property is not suitable for use with any conventional system, modified or alternative, with which I am aware.

If I can be of assistance, please feel free to call.

Sincerely,

Bill D. Hardister, Jr.
Environmental Health Supervisor

Dear Ms. Davis:

I have made a soils investigation on the rear portion of the tract (tax code 011-013-27), located on Ramah Church Road. There are some areas that appear to be acceptable for septic tank system installation pending the satisfactory completion of a building site investigation. No building sites were marked or were the exact locations of the property lines on the rear of the tract. Some soils shallow in depth to weathered rock (less than thirty-six inches) were also found.

Please contact me if I can be of assistance at a later date.

Sincerely,

William R. Marlin
Soil Scientist
