Re: Application for approval to use an existing on-site wastewater treatment & disposal system.
Property Location: **2235 W Sugar Creek Road**
Health Department File Number: **10464 B**

Dear Property Owner or Owner's Agent:

On October 23, 2019 the Mecklenburg County Health Department, Groundwater & Wastewater Services Section, evaluated the above-referenced property to determine if approval to use an existing on-site wastewater treatment & disposal system could be granted for your proposed project. This evaluation was done in accordance with the laws and rules governing wastewater systems in North Carolina General Statute 130A-333 and related statutes, Title 15A, Subchapter 18A, of the North Carolina Administrative Code, Rule .1900 and related rules, and the Mecklenburg County Groundwater Well Regulations.

Based on the information provided in the application, dated, October 16, 2019, and findings from the site evaluation conducted by our office, your request for approval to use an existing on-site wastewater treatment & disposal system is **not** being granted. This decision is based on the following conditions that were identified during the site visit:

- ☐ The existing on-site wastewater treatment & disposal system was not functioning properly at the time the site evaluation was conducted.
- ☐ The proposed plans do not meet the required setbacks for the on-site wastewater treatment & disposal system serving the property.
- ☐ The proposed plans do not meet the required setbacks for the reserved repair area for an on-site wastewater treatment & disposal system.
- ☐ The proposed plans do not meet the required setbacks for water supply wells.
- ☒ The proposed project will exceed the permitted daily design flow for the existing on-site wastewater treatment & disposal system. System alteration will be required in order to accommodate your proposed project.

If you need any additional information or assistance, please contact our office at (980) 314-1680.

Sincerely,

Kim Garrett, REHS
St. Environmental Specialist

## Garrett, Kimberly

**From:** Garrett, Kimberly
**Sent:** Wednesday, October 23, 2019 10:35 AM
**To:** zebcampbell44@gmail.com
**Subject:** 2235 W Sugar Creek Rd

Good morning,

We received your "use existing system" application for a new 6-bedroom house at the above address and I look forward to working with you on this project.

Based on our records, the house that was demolished in 2015, had 3-bedrooms. Since the proposed house will be a 6-bedroom home, we will have to deny the "use existing system" application because the existing septic system is only sized for a 3-bedroom. We could approve a new 3-bedroom home as long as it met the 25' setback off the existing well and the minimum 5' setback off the septic tank and drain field.

If you wish to move forward with a 6-bedroom house, you may apply for an "alteration permit" and we will credit you the $100 that you have already paid toward the $300 alteration permit fee. Once you apply and pay the remaining $200 for the alteration permit we will make a site visit to look at where the existing system is and where additional drain line can be added.

Prior to us making the site visit we will need the following completed:

1. Property lines clearly marked to ensure that the existing and new drain lines meet the appropriate setbacks off the property line (10'). We will have to look at the soils on the property to make sure they are suitable for additional drain line and repair area.

2. The existing septic tank and drain field will need to be located and the boundaries of it flagged or marked in some way – a septic contractor can do this for you.

3. Floor plans for the 6-bedroom house emailed to me so we have a copy for the file.

4. The corners of the new house/garage footprint to be clearly staked in the field. The proposed house/garage will need to meet the 25' set back off the existing well and the minimum 5' setback off the septic tank (more if there is a foundation drain).

Below is the link to the septic permit. You can click "alteration" for question #1.

https://www.mecknc.gov/HealthDepartment/EnvironmentalHealth/GWS/Forms1/Residential%20Permit%20Application%20-%20Septic.pdf

The completed application can be printed, signed and forwarded to Loretta.ellis@mecklenburgcountync.gov

You will receive a letter in the mail notifying you of the use existing system permit denial.

Please contact me if you have additional questions or concerns.

Sincerely,
Kim
