INTER-OFFICE COMMUNICATION

DATE: May 7, 1975

TO John R. Adkisson

FROM: W. Everette Lynn, Jr.
Soil Scientist

SUBJECT APT 7596 (W. P. Thomas)
Lot No. 12 & P.O. 13B, Peggy Lane
Tax Code No. P.O. 195-041-22
Date: 5/5/75

Due to combination of lots, an adequate area of acceptable soils have been provided on the front portion of the lot (adjacent to Peggy Lane). The acceptable soils are of the Cecil series. These soils have adequate drainage and aeration and moderate permeability.

Based on this investigation, the lot is recommended for conditional approval for installation of a septic tank system. The system should be located in the area of Cecil soils as indicated on the "Percolation Test Report". System design should be based on a 60 min./in. perc. rate.

MECKLENBURG COUNTY HEALTH DEPARTMENT
INTER-OFFICE COMMUNICATION

DATE: March 12, 1974

TO: Mr. Moffitt D. Kirby
Environmentalist

FROM: W. Everette Lynn, Jr. WEL
Soil Scientist

SUBJECT: Apt. 7596 (W.P. Thomas)
Lot No. 13-P Peggy Lane
3-11-74

Soils were found to be of the Helena series. These soils have plastic and sticky clay subsoils which contain swelling clay minerals. They may also have a perched high water table during periods of high rainfall. These soil characteristics result in inadequately slow permeability. Percolation rate on these soils is highly variable; however, they have a true mean percolation rate in excess of 180 min/in.

Based on this investigation, the lot appears unsuitable for installation of a septic tank system.

The above specified lot is approved by the Mecklenburg County Department of Environmental Health for the installation of an individual septic tank system with subsurface, soil absorption, effluent discharge based on the soil investigation, on an on site inspection of the said lot; and upon the information supplied in the "Application for an Installation, Construction, Alteration, and/or Repair Permit", number 7596 This approval is subject to the following terms and conditions

1. That the nitrification field be installed, constructed, altered and/or repaired in the same area where the soil investigation was run
2. That an "Installation Construction, Alteration, and/or Repair Permit" be issued and in full force and effect when the system is installed, constructed, altred, and/or repaired and that the system be installed in accordance with same

This approval may be revoked and the building inspection department requested to revoke any building permit(s) which have been issued to authorize construction on the said lot if at any time it is determined that any information contained in the "Application for an Installation, Construction, Alteration, and/or Repair Permit" is not correct or is untrue or that the septic tank system is not being installed, constructed, altered and/or repaired in accordance with a valid Installation, Construction, Alteration, and/or Repair Permit

This permit is issued subject to the requirements set forth in the Regulations of the Mecklenburg County Board of Health governing the installation of individual septic tank wastewater treatment systems. This permit is valid for one year from the date of the granting of this permit. A certificate of approval will be issued by the Health Department before any system can be covered up or otherwise rendered inaccessible for inspection. **The issuance of this permit does not in any way guarantee that the system anticipated to be constructed will operate properly, or relieve any person now or hereafter owning, controlling or using such system from any liability resulting from the failure of the system to operate properly.**

Assistant Director

Environmentalist

* If this permit is for the installation or construction of a new system, it must be signed by the division or section head of the Department of Environmental Health in order to be valid. Only the signature of the Environmentalist is required where an existing system is being altered or repaired.
