PLOT PLAN

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that portion of the lot as indicated on the above plot. PROVISIONALLY SUITABLE

The permeability rate determined by the investigation was . The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface soil absorption effluent discharge subject to the following terms and conditions:

1. A permit to install, construct, alter or repair the septic tank system shall be obtained from the Mecklenburg County Department of Environmental Health prior to the beginning of any construction, installation, alteration or repair of the wastewater treatment system on the said lot.
2. The size of the septic tank wastewater treatment system which may be constructed shall be determined by the Mecklenburg County Department of Environmental Health prior to installation based on the permeability rate stated above and on the size and type of building constructed thereon.
3. This approval is void if any part of the system is installed in the immediate area not designated as acceptable for system installation on the above plot.
4. This approval is void if any grading, filling, construction or any other activity of any kind which may affect the soil is performed on the lot which, in the opinion of the Mecklenburg County Department of Environmental Health, renders the area designated as acceptable for system installation unsuitable for installation, construction, alteration or future repair of such a system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
