PLOT PLAN

This soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The soil investigation was conducted on that lot as indicated on the above plot. **Provisionally**

The permeability was determined by the investigation was **Suitable** The said lot is approved for the installation of one (1) septic tank wastewater treatment system with subsurface soil absorption effluent disposal subject to the following terms and conditions

1. Any water supply system that requires the potable system shall be obtained from the Mecklenburg County Department of Environmental Health prior to the construction of the dwelling and the wastewater treatment system on the lot.
2. The size of the septic tank and the treatment system which must be installed will be determined by the Mecklenburg County Department of Environmental Health at the time of application for the permit, the rate obtained above, and on the basis of the number of bedrooms in the dwelling.
3. The location of the system is restricted to the immediate area indicated as acceptable for system installation on the site plan.
4. The [illegible] including the [illegible] is performed on the lot which the [illegible] Department of Environmental Health for the area indicated as acceptable for [illegible] system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future prior to completion of the system, these laws rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.
