PLOT PLAN

This report is based on a soil investigation and onsite investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that portion of the lot as indicated on the above plot. **Provisionally Suitable**

The permit is issued determining the investigation was [illegible] This said lot is approved for the installation of one residence septic tank absorption treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A permit must be obtained from the Mecklenburg County Department of Environmental Health before any construction of the system may be commenced. This will require that all wastewater treatment systems in the state
2. The [illegible] shall be constructed in accordance with the Mecklenburg County Department of Environmental Health regulations governing the area mentioned above and on the date of issuance of this permit.
3. The [illegible] system shall be set in the approximate location [illegible] system installation in the approved
4. The [illegible] performed on the lot which is the basis for this Mecklenburg County Department of Environmental Health approval indicated as acceptable for system [illegible] system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is valid if at any time in the future prior to completion of the system these laws rules and regulations are changed such that this approval would not have been granted had the new or revised laws rules and regulations been in effect on the issue date
