PLOT PLAN

This is to certify that a soil investigation and site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that portion of the lot as indicated on the above plot. PROVISIONALLY SUITABLE

The permeability rate determined by the investigation was The said lot is approved for the installation of an individual sewage wastewater treatment system with subsurface, soil absorption effluent disposal subject to the following terms and conditions:

1. A plan and specifications for the proposed wastewater treatment system must be submitted to the Mecklenburg County Department of Environmental Health for review and approval prior to the issuance of a construction permit.
2. The size of the system must be determined by the Mecklenburg County Department of Environmental Health using the design criteria for the soil type obtained above, and
3. The area of the lot which is acceptable for system installation is shown on the plot plan.
4. This approval applies only to the specific system proposed in the application and the site upon which the soil evaluation was performed on the lot which is shown on the plot plan. The Mecklenburg County Department of Environmental Health must be notified prior to any change in the system design or location of the system. Any alteration and/or repair of such a system must be approved by the Mecklenburg County Department of Environmental Health.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
