Stephen R. McAuley
13501 Old Statesville Road
Huntersville, NC 28078

Dear Mr. McAuley:

At your request a survey of soils and topography was made on property on Old Statesville Road (parcel 017-072-07). The purpose of the survey was to determine sit suitability for septic tank systems. A soils map was prepared and a copy is enclosed.

The unshaded area of the map indicate soils that are predominantly unacceptable for septic tank systems. The soils do not meet one or more of the requirements for acceptable soils. The small area shaded in yellow have the required depth, drainage, aeration, percolation, and suitable topography and is predominantly acceptable for septic tank systems.

Septic tank permits are issued for marked lots that have been individually tested and found to be acceptable.

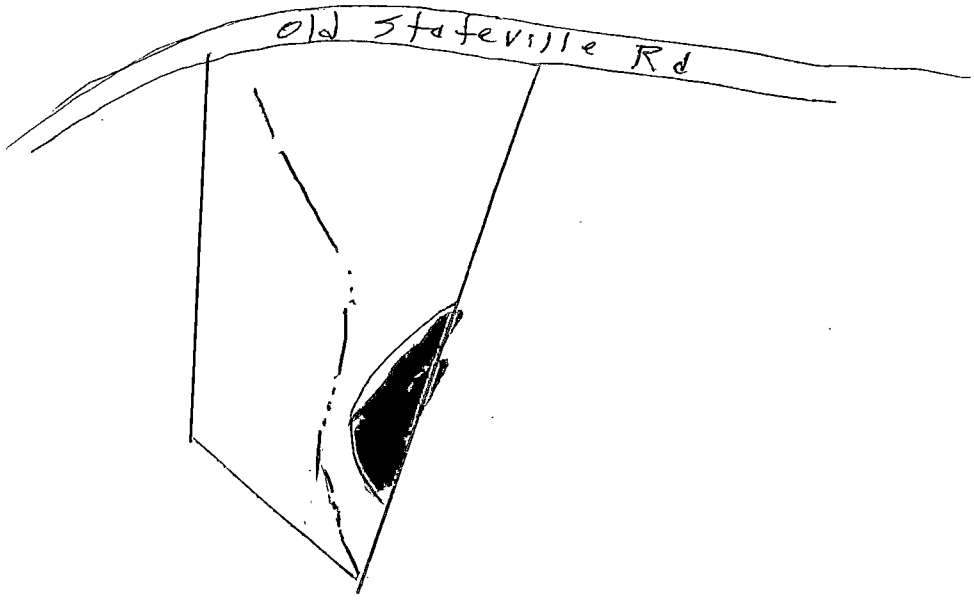

Sincerely,

Willard B. Ramsey
