PLOT PLAN

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The soil investigation was conducted on that portion of the lot as indicated on the above plot **provisionally**

The permeability rate determined by the investigation was **suitable** The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions

1. A permit must be obtained from the Mecklenburg County Department of Environmental Health prior to the construction of the wastewater treatment system on the said lot.
2. The size of the septic tank and subsurface treatment system which must be installed is to be determined by the Mecklenburg County Department of Environmental Health at the time of application for the permit based upon the size and type of structure to be served.
3. This approval is for the installation of a system on the above described lot only.
4. This approval is void after 60 days from the date of issuance unless a permit to construct the system is obtained in the Mecklenburg County Department of Environmental Health and the site is located or acceptable for system installation at the time of construction. Any change in the site will void the system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.
