RE: Property located at Newhart Road

Dear Mr. & Mrs. Seegers:

At your request, a field investigation was conducted on the property designated above. The soils on the property were found to contain a limited area of provisionally suitable soil for the installation of a ground absorption sewage disposal system. A copy of the site evaluation report is enclosed for your information.

Should you desire to file for permission to install a ground absorption sewage disposal system, please submit plot plans for the proposed construction, well, and ground absorption sewage disposal system to this office. They will be reviewed and if it is found that there is an adequate area of provisionally suitable soil to accommodate the proposed installation, an Improvements Permit will be issued by this office.

If I may be of assistance, please feel free to call.

Sincerely,

Bill D. Hardister, Jr.
Environmental Health Supervisor

The system shall meet all of the installation requirements as set forth in the Regulations of the Mecklenburg County Health Commission which are in effect on the date of the issuance of this permit. A certificate of approval must be issued by the Environmental Health Director before any portion of the system is covered up or otherwise rendered unspectable. Issuance of this permit does not in any way guarantee that the system will operate properly. The applicant shall assume all responsibility resulting from the location and operation of the system and shall indemnify and hold harmless the County from any and all claims arising from the location and operation of the system on the property.
