PLOT PLAN

This is to certify that a percolation test has been run and on the property analyzed by the Mecklenburg County Health Department on the lot described above. The said test was conducted in that portion of the lot as indicated on above plot.

The percolation rate determined by the test was *60min/in. The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface absorption effluent discharge subject to the following terms and conditions:

1. A permit to install, modify, alter or repair the specified system must be obtained from the Mecklenburg County Health Department prior to any construction or modification of the wastewater treatment system on the said lot.
2. The size of the septic tank wastewater treatment system which must be installed will be determined by the Health Department and is to be based on the percolation rate obtained above, and on the size and type of building constructed thereon.
3. This approval is valid only if the system is installed in the immediate area where the percolation test was run.
4. This approval shall be void if any grading, filling or construction including the drilling of a well is performed on the lot which in the opinion of the Health Department renders the area where the percolation test was run unsuitable for the installation, construction, alteration and or repair of such a system.

This approval is granted subject to the laws of the State of North Carolina and the rules and regulations of the North Carolina State Board of Health and the Mecklenburg County Board of Health which were in effect on the date of issuance and is void at any time in the future, prior to the completion of the system, if these laws, rules, and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.

*Results determined by soil analysis.

APPROVAL OF LOT FOR INSTALLATION OF AN INDIVIDUAL SEPTIC TANK WITH SUBSURFACE, SOIL ABSORPTION, EFFLUENT DISCHARGE

NAME OF OWNER Roush (LAST) Terry (FIRST) Douglas (MIDDLE)

ADDRESS OF OWNER 1931-B Eastway Drive, Charlotte, N. C. ZIP

LOCATION OF LOT 3824 Peggy Lane (STREET OR COUNTY ROAD)

SUBDIVISION LOT NO 13 BLOCK NO A

MAP BOOK NO PAGE NO

The above specified lot is approved by the Mecklenburg County Health Department for the installation of an individual septic tank system with subsurface soil absorption effluent discharge based on the percolation test results which yielded a percolation rate of 60 Min./In. on an on-site inspection of the said lot, and upon the information supplied in the "Application for an Installation Construction, Alteration and/or Repair Permit" number 7686. This approval is subject to the following terms and conditions

1. That the nitrification field be installed, constructed, altered, and/or repaired in the same area where the percolation test was run
2. That an "Installation Construction, Alteration and/or Repair Permit" be issued and in full force and effect when the system is installed, constructed, altred, and or repaired and that the system be installed in accordance with same

This approval may be revoked and the building inspection department requested to revoke any building permit(s) which have been issued to authorize construction on the said lot if at any time it is determined that any information contained in the "Application for an Installation, Construction, Alteration, and/or Repair Permit" is not correct or is untrue or that the septic-tank system is not being installed, constructed, altered and or repaired in accordance with a valid Installation, Construction Alteration, and/or Repair Permit

INSTALLATION, CONSTUCTION, ALTERATION, AND/OR REPAIR PERMIT

(Individual Septic Tank System with Subsurface, Soil Absorption, Effluent Discharge)

Permission is hereby given to ✓ Install / Construct Alter or Repair the individual septic tank wastewater treatment system with subsurface soil absorption effluent discharge as specified herein at the described location. This permit is issued based upon the information supplied on application dated _____ and is void and of no effect if the information provided in the application is found to be false. All work must be completed on or before 2-26-74 after which date this permit is void.

Proposed Use: 4 BR

Liquid Capacity: 1000 gal

Tank Material: Concrete

Absorption Area: _____

Trench Width: 24"

Number of Lines: 5 @ 55'

Distance Between Lines: 10'

Distance from Building: 12'

Distance from Property Lines: 50'

NAME OF OWNER _____

LOCATION OF PROPERTY _____

This permit is issued subject to the conditions and requirements as set forth in the Regulations of the Mecklenburg County Board of Health with respect to the date of the granting of this permit. A certificate of approval must be issued by the Health Director before any system can be covered up or otherwise rendered uninspectable or can be used.

Comments: 1000 gal Concrete Tank - Scratch Surface @ 15" Cover - Trench Width 24" - Temperature Correction Made

By _____ Environmentalist

This permit is for the installation or construction of a new system, it must be signed by the division or section chief of the Environmental Health Division in order to be valid. Only the signature of the Environmentalist is required where an existing system is being altered or repaired.
