TO: Mr. Moffitt D. Kirby
Environmentalist

FROM: W. EveretteLynn, Jr. WEL
Soil Scientist

SUBJECT: Apt. 7597 (W. P. Thomas)
Lot No. 14-B Peggy Lane
3-11-74

Soils were found to be of the Helena series. These soils have plastic and sticky clay subsoils which contain swelling clay minerals. They may also have a perched high water table during periods of high rainfall. These soil characteristics result in inadequately slow permeability. Percolation rate on these soils is highly variable; however, they have a true mean percolation rate in excess of 180 min/in.

Based on this investigation, the lot appears unsuitable for installation of a septic tank system.

SUBJECT: APT 7597 (W. P. Thomas)
Lot No.'s 14, 15 and P.O. 13B
Peggy Lane
Tax Code No: P.O. 195-041-22
Date: 5/5/75

Due to combination of lots, an adequate area of acceptable soils have been provided on the front portion of the lot (adjacent to Peggy Lane). The acceptable soils are of the Cecil series. These soils have adequate drainage and aeration and moderate permeability.

Based on this investigation, the lot is recommended for conditional approval for installation of a septic tank system. The system should be located in the area of Cecil soils as indicated on the "Percolation Test Report." System design should be based on a 60 min./in. perc. rate.

PLOT PLAN

This is to certify that [illegible] has been made by the Mecklenburg County Health Department and that the test was conducted in that portion of the lot as indicated in above plot plan.

*60 Min./In. The system approved for the installation of a [illegible] absorption effluent discharge subject to the following conditions:

1. A permit must be obtained from the Mecklenburg County Health Department prior to the installation of the said system on the said lot.
2. The size of the system that must be installed will be determined by the Health Department prior to the issuance of the permit and will obtain [illegible] in the size and type of building constructed thereon.
3. The approval is for the immediate area where the percolation test was run.
4. The approval is based on [illegible] including the [illegible] were performed on the lot which [illegible] and are suitable for the installation of a septic tank system.

This approval is granted subject to the Laws of North Carolina and the rules and regulations of the North Carolina Department of Mecklenburg County Board of Health which were in effect at the date of issuance. It is possible that at some time in the future prior to the completion of the system these laws, rules and regulations may be changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.

*Results determined by soil analysis
