SUBDIVISION LOT NO C BLOCK NO

PLOT PLAN

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that portion of the lot as indicated on the above plat **provisionally**

The permeability rate determined by the investigation was **suitable** The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface soil absorption effluent discharge subject to the following terms and conditions

1. A permit must be obtained before beginning the construction of the system from the Mecklenburg County Department of Environmental Health. The plans and specifications of the wastewater treatment system must be approved.
2. The size of the septic tank and other treatment units which may be required will be determined by the Mecklenburg County Department of Environmental Health prior to the issuance of the permit. The size required above and on the site and type of system installed therein.
3. This approval is valid only for the system as described in this soil evaluation and indicated as acceptable for system installation on the above plat.
4. This approval is valid for one year from the date of issuance, including the testing that was performed on the lot which in the opinion of the Mecklenburg County Department of Environmental Health renders the area indicated as acceptable for system installation unsuitable for installation, construction, alteration, and or repair of such a system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
