PLOT PLAN

The undersigned certifies that a site investigation and inspection was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that part of the lot indicated on the above plot Provisionally Suitable

The permeability rate determined by this investigation was The said lot is approved for the installation of an individual subsurface wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions

1. Any modification, alteration, repair or extension of the system must be approved by the Mecklenburg County Department of Environmental Health prior to the beginning of such modification, alteration, repair or extension of the wastewater treatment system on the lot.
2. The size of the septic tank and absorption system and the total linear feet of trench required shall be determined by the Mecklenburg County Department of Environmental Health in accordance with the permeability rate obtained above, and in the size gradation of the Mecklenburg County Sanitary Code.
3. This approval is valid for a period of two years from the date hereof, provided no changes are made in the soil conditions as existed at the time of the investigation and inspection which formed the basis for this approval.
4. This approval is granted only for the specific system and size of system for which the permeability rate was determined on the lot which is the subject of this approval. The Mecklenburg County Department of Environmental Health may withdraw this approval if it is determined that the lot is located as acceptable for system installation or if any modification, alteration, repair or extension of the system is made at any time without the approval of the Mecklenburg County Department of Environmental Health.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.

MAP BOOK NO. 10 PAGE NO 257

The above specified lot is approved by the Mecklenburg County Department of Environmental Health for the installation of an individual septic tank system with subsurface, soil absorption, effluent discharge based on the soil investigation, on an on-site inspection of the said lot, and upon the information supplied in the "Application for an Installation, Construction, Alteration, and/or Repair Permit", number 13735. This approval is subject to the following terms and conditions:

1. That the nitrification field be installed, constructed, altered and/or repaired in the same area where the soil investigation was run.
2. That an "Installation Construction Alteration, and/or Repair Permit" be issued and in full force and effect when the system is installed, constructed, altered and/or repaired and that the system be installed in accordance with same.

This approval may be revoked and the building inspection department requested to revoke any building permit issued which have been issued to authorize construction on the said lot if at any time it is determined that any information contained in the "Application for an Installation Construction Alteration, and or Repair Permit" is not correct or is untrue or that the septic tank system is not being installed, constructed altered and or repaired in accordance with a valid Installation Construction, Alteration, and/or Repair Permit.
