PLOT PLAN

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the property described above. The said investigation was conducted on that part of the lot as indicated on the plot plan. Provisionally Suitable

The permeability rate determined on the investigation was The said lot is approved for the installation of an individual system for wastewater treatment system with subsurface soil absorption effluent discharge subject to the following terms and conditions:

1. A system design shall be submitted to the Mecklenburg County Department of Environmental Health for review and approval prior to the wastewater treatment system installation.
2. The size of the septic tank and the total length of trench shall be determined by the Mecklenburg County Department of Environmental Health according to the application rate obtained above and in the use and type of building proposed.
3. This approval is valid for the system as installed in the area indicated acceptable for system installation on the above plot.
4. The approval is based on the soil conditions existing at the time the investigation was performed on the lot which is the location of the Mecklenburg County Department of Environmental Health. Any change in the area indicated as acceptable for system installation or unsuitable for installation of a system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which are in effect on the date of issuance and is void if at any time in the future prior to completion of this system these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.
