PLOT PLAN

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that portion of the lot as indicated on the above plot. The said lot is approved PROVISIONALLY SUITABLE. The permeability rate determined by the investigation was for the installation of an individual septic tank wastewater treatment system with subsurface soil absorption effluent discharge subject to the following terms and conditions:

1. A system design [illegible] shall be submitted to the Mecklenburg County Department [illegible] the waste-water treatment [illegible]
2. The [illegible] shall be determined by the Mecklenburg [illegible] the permeability rate obtained above and [illegible]
3. [illegible] acceptable for system installation [illegible]
4. This approval [illegible] of a system [illegible] the soil investigation is performed on the lot which [illegible] the Mecklenburg County Department of Environmental Health considers the area indicated as acceptable for system installation unsuitable for installation, construction, alteration and repair of such a system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
