File – Willard Pruett folder

Date – Dec. 7th – First investigation and water sample taken in drainage ditch which showed violation.

Date – Dec. 12th – Date letter actually written to notify me of violation.

Date – Dec. 13th – Date letter mailed to my former address on Allister Dr. where I had lived three months previously.

Date – Dec. 15th, 6:00 P.M. – Time I actually received notification of violation.

Date – Dec. 16th, Monday, 4:00 P.M. – Date I met Mr. Sexton at Health Dept. and filled out papers for repair to correct violation. Asked Mr. Sexton for extension of time for repair. Mr. Sexton set Jan. 5th as time alloted for violation to be corrected.

Dec. 18th, Monday evening – Contacted Mr. Fonnie Oaks with Oaks Septic Tank Service for repair. Mr. Oaks was given contract to do job, but Mr. Oaks stated he was three weeks behind schedule and it would be that long before he could do work if weather conditions permitted.

Date – Dec. 19th, Tuesday – Called Health Department head, Mr. Livens to ask for extension of time to get work done. Time granted by Mr. Livens.

Date – Dec. 20th, Wednesday – Health Dept. contacted Mr. Fonnie Oaks to verify his handling the repair – verification given by Mr. Oaks.

Dec. 20th, Wednesday – Contacted Health Dept. by phone and asked Mr. Sexton to double check and violation because no visible evidence of violation could be seen by me. He did so and reported back to me that no visible evidence was seen.

Date – Dec. 23rd, Saturday – Mr. Oaks visited site at 11433 Sam Neely Rd. to view violation and determine what correction should be done – found muddy conditions but no visible evidence of anything wrong with septic tank.

Date – Jan. 11th, Tuesday – Mr. Oaks had Mr. Sexton from Health Dept. meet him at 11433 Sam Neely Rd. to show Mr. Oaks where violation was – none was found. Muddy conditions still prevailed.

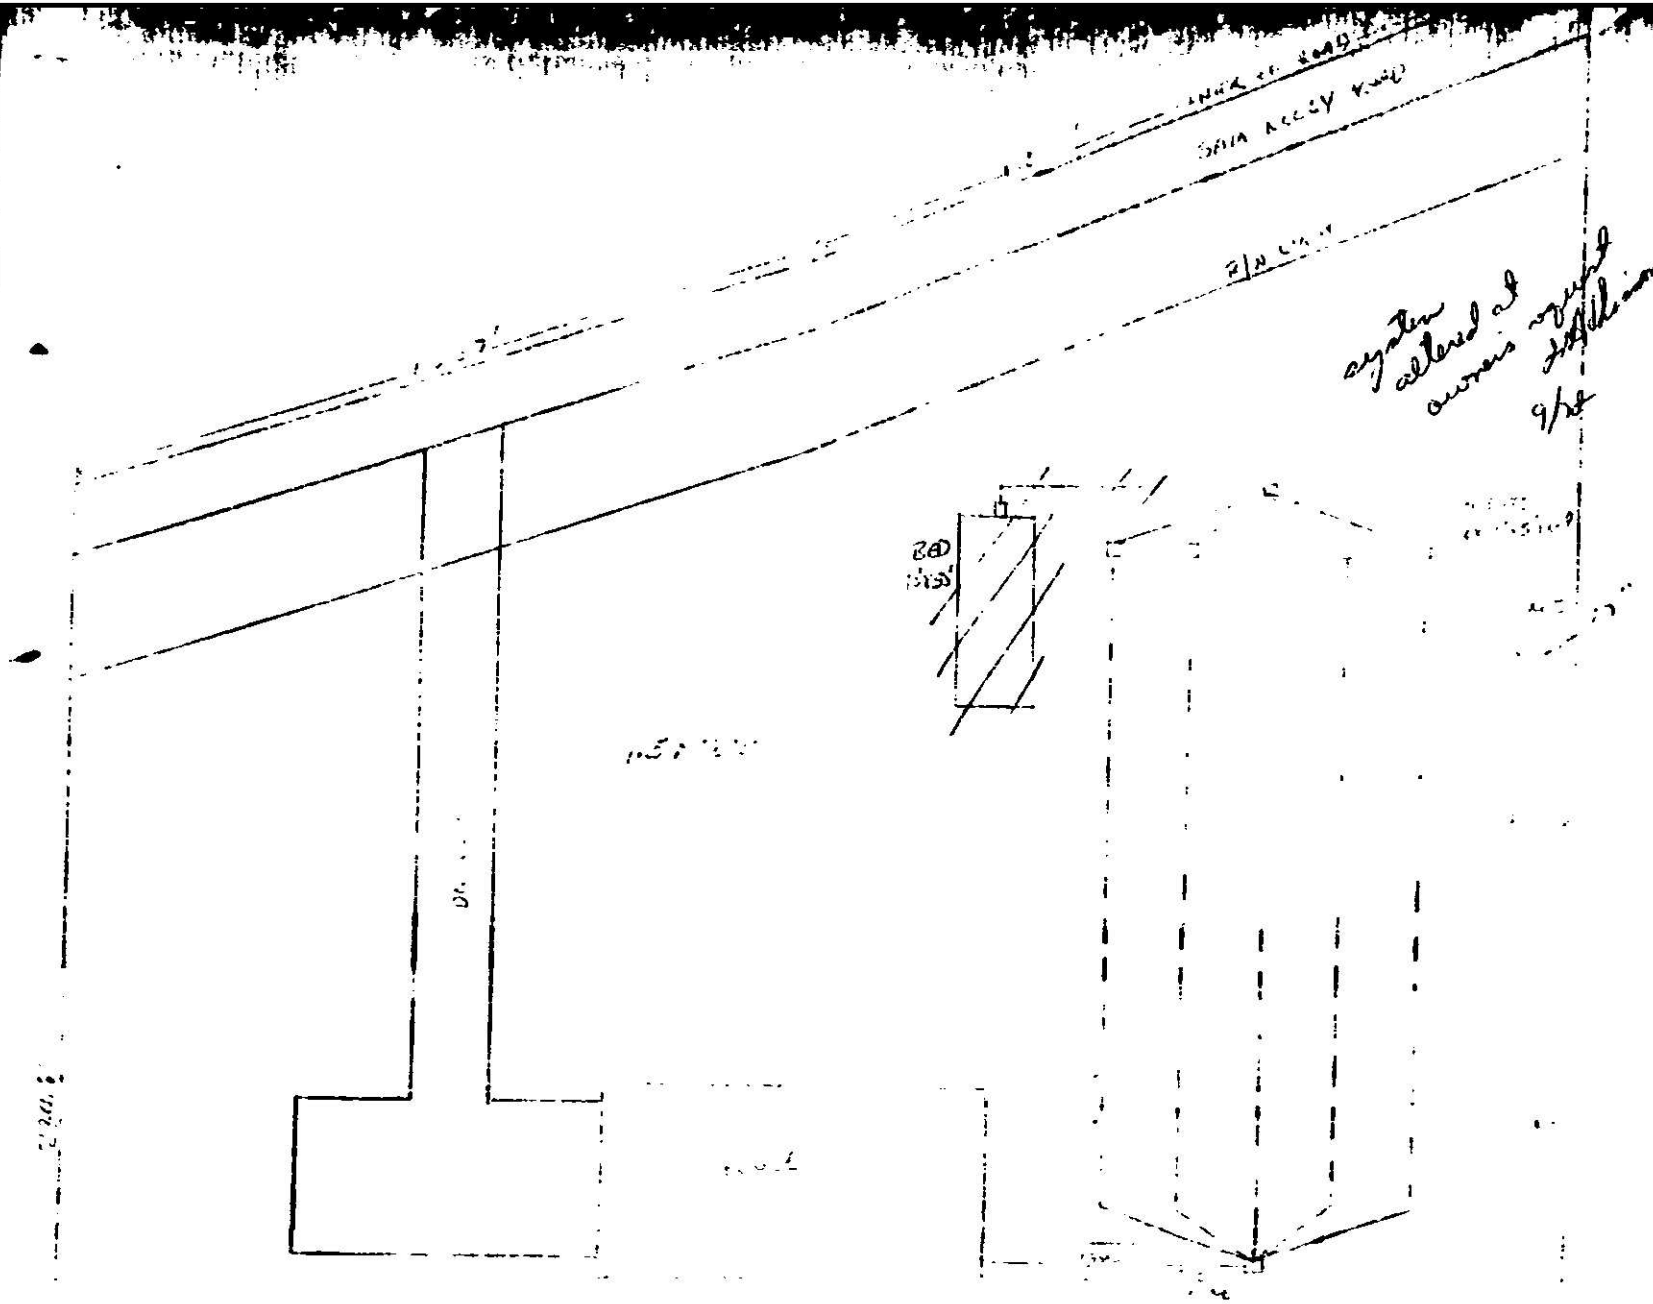

Date – Jan. 15th – Monday – Willard Pruett contacted Mr. Oaks to find out when weather conditions would permit him to do contracted work. Mr. Oaks stated that he had been by, and that muddy conditions and water standing in the area would not permit work to be done without machine sinking in mud thus making it impossible to render proper correction.

Date - Jan. 18th, Thursday - Mr. Oaks called Willard Pruett at work and said he would check at noon to see if yard conditions had dried out enough to permit equipment in yard to do work. This he did. Muddy conditions still prevailed in yard.

Date - Jan. 18th, Thursday night - Mr. Oaks called me at my residence stating that Mr. Sexton told him late Thursday afternoon that a warrent for my arrest had been signed by Mr. Sexton Tuesday, January 16th , for failure to comply with citation.

Date - Jan. 19th, A.M. Friday - Mr. Oaks arrived on site and proceeded to open trench over septic lines for Mr. Atkinson and Mr. Sexton to examine lines. This they did - found no problem with lines but stated that at least 100 feet of new line must be added to constitute a repair for Health Dept. records. One hundred feet of new line was added.

Date - Jan. 19th, Friday afternoon, 4:00 P.M. - Mr. Pruett turned himself in at county police station for arrest - was arrested and must appear in court Friday, February 2nd to face charges for violation.

INTER-OFFICE COMMUNICATION

DATE: October 26, 1977

FROM: William R. Marlin
William R. Marlin
Soil Scientist

TO: Mr. T. W. Bivens
Director

SUBJECT: Hugh A. Bridges Property

Soil investigations to determine site suitability for the installation of septic tank systems were conducted on the property of Hugh A. Bridges, Route 3, Box 299, Charlotte, North Carolina. The investigations were requested by Mr. Bridges and made on April 25, 1977. Three tracts of land were involved. Two of the tracts (APT # 12242 and 12243, having Tax Code Numbers: P.0.199-121-04) are each approximately one and one-half acres in size. These lots are located in an open field in the point between Sam Neely and Sledge roads. The lot with APT#12242 has frontage on Sam Neely Road and the lot with APT#12243 has frontage on Sledge Road. Both lots have a common rear property line.

The third tract, APT#12241, has frontage on Sam Neely Road and is approximately five acres in size. This tract is wooded.

The soils on all three tracts were found to be of the Iredell series. These soils have extremely plastic and sticky clay horizons that contain the expanding mineral montmorillonite. Also, the soils are shallow, with the depth to weathered rock (saprolite) varying from approximately thirty to forty-eight inches.

The soils have a perched water table, as indicated by gray mottling found in borings on all three tracts. The large tract (APT#12241) showed evidence that water collects upon and remains on various areas of the lot for extended periods of time. Subsequently, the findings from the investigations are such that the three lots are classified as unsuitable for the installation of septic tank systems, according to North Carolina Department of Human Resources septic tank system regulations.

Another visit was made to the Bridge's property on August 29, 1977. Present were: Dean Harrill, District Sanitarian, N.C. Department of Human Resources; Sam Rich, Consumer Services Program Manager, Mecklenburg Environmental Health Department; Hugh Bridges; and William R. Marlin, Soil Scientist with the Mecklenburg County Environmental Health Dpeartment. Dean Harrill had been requested by his supervisor to make an inspection of the Bridge's property.

As a result of the visit, Mr. Harrill confirmed the findings of the soils investigations that had been made in April. Mr. Bridges was advised of this confirmation at the time of the visit. Additional borings were made on all three tracts.

PRESENTED FOR REGISTRATION

'78 FEB 16 AM 10 07

REGISTER OF DEEDS MECKLENBURG CO. N.C.

Willard W. Pruett

The undersigned, ~~Hugh A. Bridges~~, owner of property located at Sam Neely Road, (Parcel #: P.O.199-121-04) ("the site") and described in instrument recorded in Book 4016 at Page 758, Mecklenburg Public Registry, hereby acknowledges that he applied to the Department of Environmental Health for a permit to install a septic tank sewage disposal system on the site; the Department evaluated the site for suitability for such a system in accord with the regulations promulgated by the North Carolina Commission for Health Services as 10 NCAC 10A.1900 et seq; that the Department classified the site as "provisionally suitable" and an appropriate permit was issued by the Department.

21

The undersigned further acknowledges that the proper design, construction and maintenance of such septic tank system is his responsibility and that neither the Department nor its officials, employees, or agents warrant or guarantee that the said system installed pursuant to the permit issued by the Department will function in a satisfactory manner for any given period of time, or that the Department, its officials, employees or agents assume any liability for damages, consequential or direct, which are caused, or which may be caused, by a malfunction of such system.

This document shall be placed on the public records of the Register of Deeds of Mecklenburg County and indexed therein under the Grantor Index in the names of the undersigned, and the foregoing acknowledgments shall henceforth be binding on all persons claiming any right, title, or interest in the site.

And the undersigned further agrees for himself, his heirs and assigns, that he and they will indemnify and hold harmless the Department and its successors, as well as Mecklenburg County, for any damages or other claims of any person or persons whatsoever arising out of the installation, operation, or failure, of said septic tank system.

And the undersigned further agrees for his heirs and assigns that, in the event the septic tank system installed under authority of the aforesaid permit fails to perform adequately in any respect, he will take whatever measures are required to correct same; or if such is impossible, he will discontinue use of said system forever.

Use of the masculine pronoun forms herein shall be deemed to also include the plural and feminine forms as the context may require.

The above specified lot is approved by the Mecklenburg County Department of Environmental Health for the installation of an individual septic tank system with subsurface, soil absorption, effluent discharge based on the soil investigation, on an on-site inspection of the said lot; and upon the information supplied in the "Application for an Installation, Construction, Alteration, and/or Repair Permit", number 12242. This approval is subject to the following terms and conditions:

1. That the nitrification field be installed, constructed, altered and/or repaired in the same area where the soil investigation was run.
2. That an "Installation, Construction, Alteration, and/or Repair Permit" be issued and in full force and effect when the system is installed, constructed, altred, and/or repaired and that the system be installed in accordance with same.

This approval may be revoked and the building inspection department requested to revoke any building permit(s) which have been issued to authorize construction on the said lot if at any time it is determined that any information contained in the "Application for an Installation, Construction, Alteration, and/or Repair Permit" is not correct or is untrue or that the septic-tank system is not being installed, constructed, altered and/or repaired in accordance with a valid Installation, Construction, Alteration, and/or Repair Permit.
