Re: Lot 1 Amos Smith Road
File: 1772B
Parcel: 113-221-03PO

Dear Sirs:

Receipt of your Application for Improvement Permit for the above referenced property is acknowledged. A soil evaluation and a site visit have been conducted. The results of the evaluation indicated that the site is **UNSUITABLE** under Rules .1941 **SOIL CHARACTERISTICS (MORPHOLOGY)**, .1943 **SOIL DEPTH** and .1945 **AVAILABLE SPACE**. For these reasons your Application for Improvement Permit is denied. A possible way to develop the site exists under Rule .1948(d) which reads as follows:

> A site classified as **UNSUITABLE** may be used for a ground absorption sewage treatment and disposal system specifically identified in Rules .1955, .1956, or .1957 of this Section or a system approved under Rule .1969 if written documentation, including engineering, hydrogeologic, geologic or soil studies, indicates to the local health department that the proposed system can be expected to function satisfactorily. Such sites shall be reclassified as **PROVISIONALLY SUITABLE** if the local health department determines that the substantiating data indicate that:
> (1) a ground absorption system can be installed so that the effluent will be non-pathogenic, non-infectious, non-toxic, and non-hazardous;
> (2) the effluent will not contaminate ground or surface water; and
> (3) the effluent will not be exposed on the ground surface or be discharged to surface waters where it could come in contact with people, animals, or vectors.

The State shall review the substantiating data if requested by the local health department.

Please be advised that you have the right to an informal review by this department. You also have the right to appeal under G.S. 130A-24, and to have the appeal held in Mecklenburg County.

If you have any questions regarding this matter, please call me at 336-5575.

Sincerely,

Kelly Randall, R.S., Soil Scientist
Individual Water and Wastewater Systems

Re: River Walk Plantation

Dear Bill:

Thank you for the guidance as to the procedure for having the lots in the above referenced subdivision perk tested. Per your request, I am enclosing herewith a survey of the total development, sixteen (16) Application for Improvement Permits and sixteen (16) proposed plot plans. Also, a check for $1,600 is enclosed to cover the $100 per lot fee for the testing.

I have completed the applications per instructions from my surveyor. If any additional information is needed, please call me at 704/867-5002. Obviously, more applications will be forthcoming. I will hold additional ones until your office notifies me that this "batch" is complete.

Again, thank you for the help.

Best regard,

Stover-Pearson, LLC

Rob Pearson

Robert S. Pearson
