Ben S. Adams
8742 Blair Road
Charlotte, NC 28212

Dear Mr. Adams:

At your request a pre-preliminary soil investigation was made on your property off Blair Road. The purpose of the investigation was to determine site suitability for septic tank systems. A soils map was made and a copy is enclosed.

The area of the property shaded in yellow have soils that have the drainage, aeration, depth and percolation required for septic tank systems and are classed as predominantly acceptable for septic tank systems.

The remainder of the property have been eroded and the soils do not have the depth required for the provisionally acceptable classification.

Permits are issued for lots only after all corners and side lines are marked on the property and the lots have been individually tested and found to have provisionally acceptable soils.

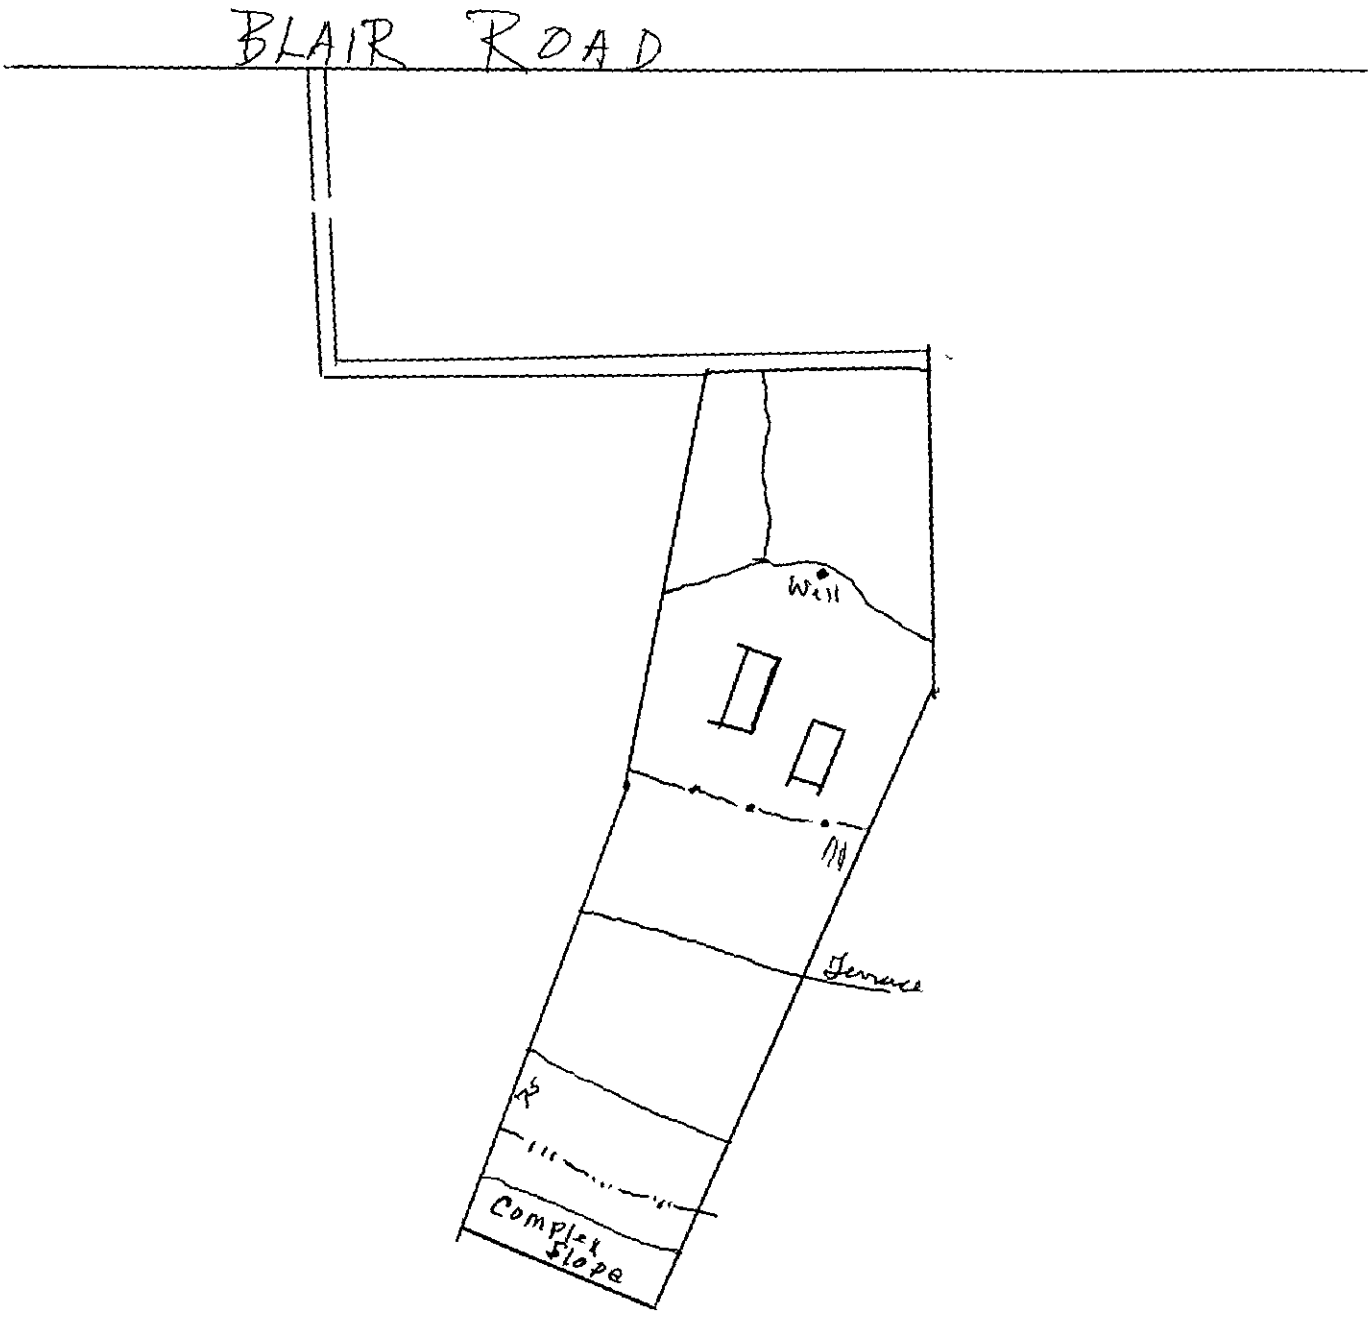

If you have any questions regarding this, please do not hesitate to contact me at 376-4603.

Sincerely,

W. B. Ramsey
Soil Scientist
