PLOT PLAN

This is to certify that a soil investigation and waste investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that portion of the lot as indicated on the above plot. Provisionally Suitable

The permeability rate determined by the investigation was The said lot is approved for the installation of one septic tank type wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A permit for the construction and operation of a wastewater treatment system must be obtained from the Mecklenburg County Department of Environmental Health. Plans and specifications for the wastewater treatment system must be submitted.
2. The size of the system must be sufficient to accommodate the number of bedrooms as determined by the Mecklenburg County Department of Environmental Health. The size of the system must be sufficient to accommodate the soil type as obtained above and on the soil and site evaluation.
3. This approval is valid only for the system as set on the immediate area as staked acceptable for system installation on the above plot.
4. This approval is void if the plot plan is changed in any manner that requires the siting of a well. If a well is performed on the lot which the system is proposed, the Mecklenburg County Department of Environmental Health must verify the area indicated as acceptable for system installation is at least 100 feet from the well. If not, the system must be altered to meet the minimum distance requirement.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.

MAP BOOK NO. PAGE NO

The above specified lot is approved by the Mecklenburg County Department of Environmental Health for the installation of an individual septic tank system with subsurface, soil absorption, effluent discharge based on the soil investigation, on an on-site inspection of the said lot; and upon the information supplied in the "Application for an Installation, Construction, Alteration, and/or Repair Permit", number 13723. This approval is subject to the following terms and conditions:

1. That the nitrification field be installed, constructed, altered and/or repaired in the same area where the soil investigation was run
2. That an "Installation, Construction, Alteration, and/or Repair Permit" be issued and in full force and effect when the system is installed, constructed, altered and or repaired and that the system be installed in accordance with same

This approval may be revoked and the building inspection department requested to revoke any building permit(s) which have been issued to authorize construction on the said lot if at any time it is determined that any information contained in the "Application for an Installation, Construction, Alteration, and/or Repair Permit" is not correct or is untrue or that the septic tank system is not being installed, constructed, altered and/or repaired in accordance with a valid Installation, Construction, Alteration, and/or Repair Permit
