PLOT PLAN

This is to certify that a soil investigation and onsite investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The soil investigation was conducted on that portion of the lot as indicated on the above plot. **Provisionally Suitable**

The permeability rate determined by the investigation was . The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. All sewage, water, and waste effluent from the proposed system shall be discharged into the Mecklenburg County Department of Environmental Health approved septic tank and all other parts of the wastewater treatment system on the said lot.
2. The size of the septic tank and other treatment system which must be installed as determined by the Mecklenburg County Department of Environmental Health is subject to the permit limits obtained above, and to the design and type of building proposed thereon.
3. The approved soil absorption system must be located in the immediate area and in the general location for system installation on the above plot.
4. The superintendent of any residence, building or structure using the system shall be informed on the lot which the system is installed, the Mecklenburg County Department of Environmental Health has designated as acceptable for subsurface disposal of sewage and shall be instructed in operating the system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
