PLOT PLAN

This is to certify that a soil investigation and site evaluation was made by the Mecklenburg County Department of Environmental Health on the property described above. As a result of this investigation was conducted on that portion of the lot as indicated on the plot plan. PROVISIONALLY SUITABLE

The permeability rate determined by the investigation was _____ and the lot is approved for the installation of an individual septic tank with conventional trenches with subsurface soil absorption effluent disposal subject to the following terms and conditions:

A permit to install the septic system shall be issued by the Mecklenburg County Department of Environmental Health prior to the beginning of construction of building and the wastewater treatment system for the above lot.

2. The site of the above lot may be inspected by the Mecklenburg County Department of Environmental Health prior to issuance of the permit and on the date and time specified on the permit.

3. The approval of the above lot is for the system installation on the above plot.

4. This approval is for the lot as shown on the plot plan. Any change in the lot which may affect the suitability of the soil for sewage disposal must be approved by the Mecklenburg County Department of Environmental Health.

The approval given is based on the current laws, rules and regulations governing the construction and operation of sewage disposal systems as set forth in the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Department Ordinance which were in effect on the date of this report and is valid for any time prior to construction of the system, these laws, rules and regulations are changed such that this lot would not have been granted had the new revised laws, rules, and regulations been in effect at the time of this report.
