PLOT PLAN

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that portion of the lot as indicated on the above plot. PROVISIONALLY SUITABLE
The permeability rate determined by the investigation was The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A permit shall be obtained from the Mecklenburg County Department of Environmental Health prior to the construction of the wastewater treatment system on the said lot.
2. The size of the septic tank and absorption system shall be determined by the Mecklenburg County Department of Environmental Health according to the rate obtained above and on the size and type of building constructed thereon.
3. This approval is granted only for the system installed in the precise area and location on the above plot.
4. This approval is void if the following failures occur within five years of the date of issuance: failure of the system to function in the opinion of the Mecklenburg County Department of Environmental Health, unless the system is repaired as acceptable by the system installer or an authorized representative of the installer and approved by the Health Department.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the newer revised laws, rules, and regulations been in effect on the issue date.
