PLOT PLAN

This is to certify that a soil investigation and onsite investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The soil investigation was conducted on that portion of the lot as indicated on the above plat. PROVISIONALLY SUITABLE

The permeability rate determined by the investigation was The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A permit to install a conventional system or one of the alternate systems allowed by the Mecklenburg County Department of Environmental Health must be obtained before any construction of the wastewater treatment system on the said lot.
2. The size of the septic tank and absorption system which may be installed on the said lot is to be determined by the Mecklenburg County Department of Environmental Health according to the rate obtained during the percolation test and on the size and type of building constructed thereon.
3. This approval is valid only for the system installation on the above plat.
4. This approval is void if any deviation from the minimum standards of the acceptable system installation performed on the lot which in the opinion of the Mecklenburg County Department of Environmental Health renders the system located as acceptable for system installation.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
