Mecklenburg County
Health Department

April 18, 2002

John P. Mckay
11601 Downs Road
Pineville, NC 28134

Dear Mr. McKay:

A required inspection of the type IVa septic system, which serves as the wastewater treatment and disposal system for the property located at 11601 Downs Road., Pineville, North Carolina, is past due.

A review of our files indicates that the required maintenance contract for this system has expired. Periodic maintenance of this type wastewater system is an important factor in extending the life of the drain field as well as a requirement found in the General Statutes of North Carolina to protect public health. Section .1900 of the North Carolina Administrative Code, North Carolina Department of Environment and Natural Resources, Division of Environmental Health, On-Site Wastewater Section, Subchapter 10A, Sanitation, states in part: "System management in accordance with Tables V (a) and V (b) of this rule shall be required for all systems installed or repaired after July 1, 1992."

Please submit a new contract with a certified operator to our office by May 18, 2002.

A list of certified operators in the immediate vicinity of Mecklenburg County is attached. If I can be of further assistance in this matter please feel free to contact me at (704) 336-5571.

Sincerely,

David Cornelius, R.S.I, Coordinator
Managed Systems Program
Individual Water and Wastewater Systems
