PLOT PLAN

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that portion of the lot as indicated on the above plat. The permeability rate determined by the investigation was PROVISIONALLY SUITABLE. The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A permit to install a septic tank system shall be obtained from the Mecklenburg County Department of Environmental Health prior to the beginning of any construction related to the wastewater treatment system on the said lot.
2. The size of the septic tank and absorption area required for the system shall be determined by the Mecklenburg County Department of Environmental Health based on the information obtained above and on the size and type of building to be served.
3. This approval is valid for the system installation permit application for system installation on the above plat.
4. This approval is granted with the understanding that any proposed changes in the system will be reviewed by the Mecklenburg County Department of Environmental Health and the area designated as acceptable for system installation shall not be altered in any manner.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
