CONCLUSIONS

This site is unsuitable for the installation of a conventional ground absorption sewage system due to:

___ Unsuitable Topography and Landscape Position Section .1940

_____

_X_ Unsuitable Soil Characteristics Section .1941
Absence of soil structure (massive) and expansive clay mineralogy

___ Unsuitable Soil Wetness Section .1942
Chromas of two or less from Munsell Color Book

_X_ Insufficient Soil Depth Section .1943
Soil depths of less than 36 inches

The site is Unsuitable under Rule .1957 Alternative Sewage Systems. Low pressure pipe systems, fill systems, and aerobic treatment units are not an option for this lot.

RECOMMENDATIONS

The owner has the following options that might allow the use of this property as desired:

1. He may purchase other Suitable or Provisionally Suitable property to place the ground absorption sewage system on.
2. He may obtain an easement on a Suitable or Provisionally Suitable property to place the ground absorption sewage system on.
3. The Division of Environmental Management in Mooresville, N. C. at (704) 663-1699 may be contacted to pursue options available through this office.
4. A sewage system can be pursued under Rule .1957 (c). Written documentation must be submitted to your office showing that the proposed sewage system can be expected to function properly. The data must contain the following:
   a. The effluent must receive adequate treatment.
   b. The ground water and the surface water must not be contaminated by the effluent.
   c. The effluent must not be exposed to the ground surface or discharged to surface waters where it could come into contact with people, animals, or vectors.
5. The denial can be appealed under G.S. 130A-24 if requested within 60 days of the denial date.

RE: Lake Wyle Liquid and Plastic Limits Test Report

Bill, after numerous tries, I finally was able to reach Steve Steinbeck for his decision on the lab report. The soil has expansive clay mineralogy and his decision was based on the limited data presented. Mr. Barrett can have Law Engineering submit the "raw" data to Steve for a more in depth review.

Steve said, he would need all of the lab test results, the location of each sample shown on a plat, and any other data they wished to submit (saturated conductivity, COLE, etc.).

He also said, that submitting a proposal under .1957(c) would probably not be approved.

Please contact Mr. Barrett and give him Steve's decision. I would prefer to work through your office, rather than contacting him directly. The address and phone number are as listed:
