Owner H. L. Mills

Location of Property Pinnell Ln. Lot No. 12 Block D

Soil Suitability Ratings Tax Code No. 105-142-21

Soil Properties	Soil 1	Soil 2	Soil 3	Soil 4
1. Soil Series	HELENA			
2. Soil Slope	suitable 2-6%			
3. Soil Depth	unsuitable <46"			
4. Soil Texture	unsuitable 2:1 Expanding clay			
5. Soil Structure	unsuitable massive			
6. Restrictive Horizon				
7. Soil Drainage	unsuitable perched high water table			
8. Soil Permeability (Percolation)	unsuitable very slow >2000 min./in.			
9. [illegible]				
10. Overall	unsuitable			

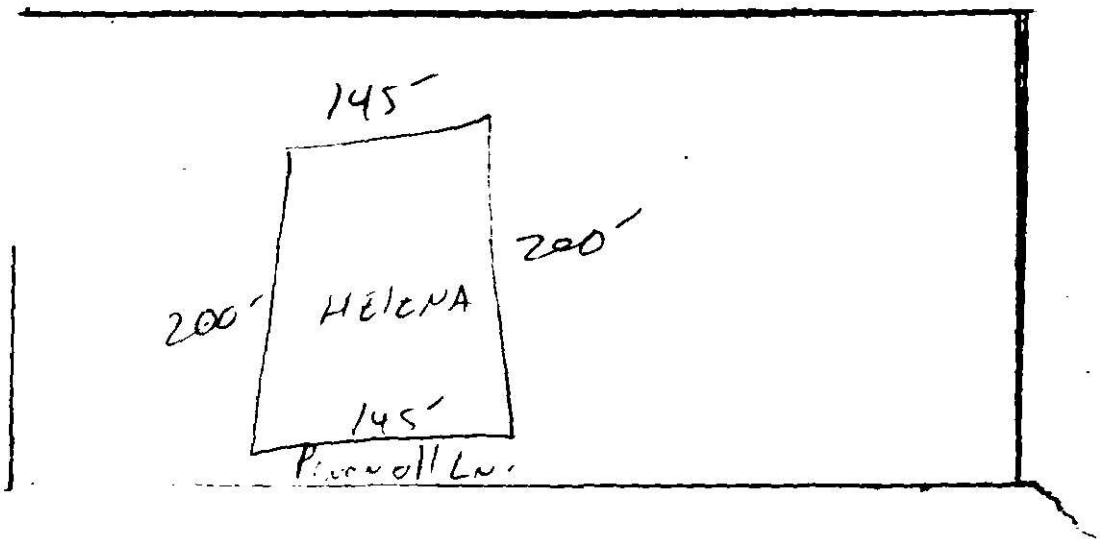

Recommendations Based on this investigation, the lot is not recommended for approval for installation of a septic tank system.

NAME OF OWNER Mills, Hubert

ADDRESS OF OWNER 1900 East Independence Blvd., Charlotte, NC

LOCATION OF LOT Pinenoll Lane, Lot 12, Block D, Casa Lynda Estates

At your request and pursuant to Section. 1900 of the North Carolina Administrative Code, Title 10, Department of Human Resources, Chapter 10, Health Services, Subchapter 10A, a site evaluation has been made for an on premises ground absorption sewage disposal system on the property designated above and the following conditions were found:

Soil Structure Massive.
Soil Permeability Unsuitable.

Section 10 of the North Carolina Administrative Code 10A, .1910 of these regulations states "Sites originally classified as unsuitable may be used for soil absorption disposal systems, provided engineering, hydrogeologic, and soils studies indicate to the local agency that a suitable alternate system can reasonably be expected to function satisfactorily.

Section 10, North Carolina Administrative Code 10A, .1916 states that "The design, construction, and maintenance of ground absorption sewage systems, whether septic tank systems or alternate systems shall be the responsibility of the owner, developer. installer, and user of the system as applicable in the circumstances."

We would also advise you that according to Regulation 10, North Carolina Administrative Code 10A, . 1916(b), "Actions of representatives of state or local agencies engaged in the evaluation and determination of measures required to effect compliance with the provisions of this section shall in no way be taken as a guarantee that sewage disposal systems approved and permitted will function in a satisfactory manner for any given period of time or that such employees assume any liability for damages, consequential or direct, which are caused or which may be caused, by a malfunction of such system.

These regulations became effective July 1, 1977. Since that time the second sentence of Section .1910(c) has been found to be nugatory. For this reason, if you desire to file for permission to install an "alternate" system you should present this office with your proposals in the form of plans and specifications. These would be reviewed and if it is found that the system may reasonably be expected to function satisfactorily approval may be given on the execution by you of a "Septic Tank Agreement Form" available in this office.
