PLOT PLAN

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that portion of the lot as indicated on the above plot **provisionally**

The permeability rate determined by the investigation was **suitable** The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A permit must be obtained prior to the construction of the system from the Mecklenburg County Department of Environmental Health prior to the construction of the wastewater treatment system on the lot.
2. The size of the septic tank and other treatment units shall be determined by the Mecklenburg County Department of Environmental Health in accordance with the rules obtained above and the number of bedrooms in the dwelling.
3. This approval is valid only for the system installed on the approved plot plan. Any other system installed on the lot is unacceptable unless approved.
4. This approval is for soil and site conditions including the number of soil borings performed on the lot which is the responsibility of the Mecklenburg County Department of Environmental Health. Borings the area indicated as acceptable for a system to be unsuitable for installation, construction alteration, repair of such a system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
