PLOT PLAN

This is to certify that a soil investigation and site evaluation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The soil investigation was conducted on that portion of the lot as indicated on the above plot **provisionally**
The permeability rate determined by the investigation was **suitable** The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface soil absorption effluent discharge subject to the following terms and conditions:

1. A permit must be obtained from the Mecklenburg County Department of Environmental Health for the installation of the wastewater treatment system on the said lot.
2. The size of the system must be approved by the Mecklenburg County Department of Environmental Health based on the number of bedrooms and the size and type of the proposed structure.
3. This approval is valid for the issuance of an initial permit for the above lot.
4. This approval is granted only for the specific area of the lot which is shown on the plot plan and indicated as acceptable for the system installation. Any change in the proposed location of the system or the structure must be approved by the Department.

This approval is granted under the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
