Albert J. Garmon
10440 Brief Rd.
Charlotte, NC 28227

Dear Mr. Garmon:

Enclosed is the soils map and the copy of the letter we discussed on the telephone.

I rechecked some of the "mixed soil" areas that are shown on the map. I am changing the designation on one area, predominantly the large, open field on the rear of the tract. This area is marked with lines as shown on the legend for the map. There are some spots that had dominantly unacceptable soils, but there seems to be more of the dominantly acceptable soils present than I had originally thought.

I also rechecked the two "mixed soils" areas adjacent to the property line on the right side of the property as viewed from Brief Rd. These areas do have some dominantly acceptable soils, but the majority of the borings appeared to be dominantly unacceptable for septic tank system installations.

Please note that this report does not express or imply individual lot approval for septic tank. Nor is subdivision approval implied. Please contact me if there are any questions with regard to this report.

Sincerely,

William R. Marlin
