The above specified lot is approved by the Mecklenburg County Department of Environmental Health for the installation of an individual septic tank system with subsurface, soil absorption effluent discharge based on the soil investigation, on an on site inspection of the said lot and upon the information supplied in the "Application for an Installation Construction, Alteration, and/or Repair Permit", number 12457 This approval is subject to the following terms and conditions

1. That the filtration field be installed, constructed altered and/or repaired in the same area where the soil investigation was run
2. That an Installation Construction, Alteration and or Repair Permit be issued and in full force and effect when the system is installed, constructed altered and or repaired and that the system be installed in accordance with same

This approval may be revoked and the building inspection department requested to revoke any building permits which have been issued to authorize construction on the said lot if at any time it is determined that any information contained in the "Application for an Installation Construction Alteration, and or Repair Permit is not correct or is untrue or that the septic-tank system is not being installed, constructed altered and, or repaired in accordance with a valid Installation, Construction Alteration, and or Repair Permit
