Dear Mr. McCarty:

Re: New Subdivision/Moore's Chapel Road, lot 10
File: 3304B
Parcel: 053-174-07

Receipt of the plans and specifications for a conventional system of sewage treatment and disposal for the above property is hereby acknowledged. Upon receipt of the information, a review was made of the material on file and a site evaluation was conducted. The plan was then reviewed in conjunction with provisions of 15A NCAC 18A .1900, "Laws and Rules for Sewage Treatment and Disposal Systems." Our comments are listed below (see enclosed soil report):

1- The available area on this site is classified as **UNSUITABLE** according to the following rules:
   (a) .1940 Topography and Landscape Position
   (b) .1945 Available Space

For these reasons, the plans as submitted are disapproved.

Possible ways to develop this site includes submittal of a plan for a Prefabricated, Permeable Block Panel System (PPBPS). These plans would also need to include appropriate surface water diversions. Enclosed is a copy of Rule .1956 Modifications to Septic Tank System pertaining to PPBP Systems.

You also have the right to an informal review with this Department, you have the right to appeal under G.S 130A-24 through the State Office of Administrative Hearings (OAH), and to have the appeal held in Mecklenburg County.

If you have any questions concerning this matter, please contact me at 336-5572.

Sincerely,

Toni Higgins-Bunney, R.S.
