MAP BOOK NO. _____ PAGE NO _____

The above specified lot is approved by the Mecklenburg County Department of Environmental Health for the installation of an individual septic tank system with subsurface, soil absorption, effluent discharge based on the soil investigation, on an on site inspection of the said lot, and upon the information supplied in the "Application for an Installation, Construction, Alteration, and/or Repair Permit", number 21051. This approval is subject to the following terms and conditions:

1. That the nitrification field be installed, constructed, altered and/or repaired in the same area where the soil investigation was run.
2. That an "Installation, Construction, Alteration, and/or Repair Permit" be issued and in full force and effect when the system is installed, constructed, altered, and/or repaired and that the system be installed in accordance with same.

This approval may be revoked and the building inspection department requested to revoke any building permits which have been issued to authorize construction on the said lot if at any time it is determined that any information contained in the "Application for an Installation, Construction, Alteration, and/or Repair Permit" is not correct or is untrue or that the septic tank system is not being installed, constructed, altered and/or repaired in accordance with a valid Installation, Construction, Alteration, and/or Repair Permit.

The system shall meet all of the construction requirements as set forth in the Regulations of the Mecklenburg County Health Commission which are in effect on the date of the granting of this permit. A certificate of approval must be issued by the Environmental Health Director before any system can be covered up or otherwise rendered uninspectable or can be used. The issuance of this permit does not in any way guarantee that the system anticipated to be constructed will operate properly, or relieve any person now or hereafter owning, controlling or using such system from any liability resulting from the failure of the system to operate properly.

PLOT PLAN

This is to certify that a soil investigation has been made by the Mecklenburg County Department of Environmental Health on the above described lot and that an investigation was conducted on that portion of the lot indicated on the above plot.

The permeability rate determined by this investigation was **Provisionally Suitable**. The said lot is approved for the installation of an individual sewage treatment system with subsurface soil absorption effluent discharge subject to the following terms and conditions:

1. A permit must be obtained from the Mecklenburg County Department of Environmental Health prior to the construction of the system on the lot.
2. The system must be installed as shown on the plot plan approved by the Mecklenburg County Department of Environmental Health and in accordance with the rules and regulations governing the construction and operation of such systems.
3. The owner of the lot must maintain the system in the approved manner.
4. This approval is granted based on the rules and regulations governing the construction and operation of such systems in effect at the time of approval. Any system installed after the effective date of any change in the rules and regulations governing such systems must be installed in accordance with the rules and regulations in effect at the time of installation.

This approval is granted based on the rules of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect at the time of issuance and is valid at any time in the future, prior to completion of the system, that such rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
