PLOT PLAN

This is to certify that a soil investigation and onsite investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that portion of the lot as indicated in the above plot. **Provisionally suitable** The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface soil absorption and/or discharge subject to the following terms and conditions:

The permeability rate determined by the investigation was

1. The approved wastewater treatment system shall be installed as per Mecklenburg County Department of Environmental Health regulations governing wastewater treatment systems.
2. The approved wastewater treatment system shall be installed by the Mecklenburg County Department of Environmental Health or by a licensed sewage system installer as required above and
3. The approved wastewater treatment system shall be installed in the soil as described above and
4. The approved wastewater treatment system shall be installed as per plans approved by the Mecklenburg County Department of Environmental Health. Modifications to the approved plans must be approved by the Mecklenburg County Department of Environmental Health prior to installation. Any deviation from the approved plans may result in the system being declared unacceptable for use and may require the system to be removed or abandoned.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
