PLOT PLAN

This is to certify that [illegible] test [illegible] on the [illegible] by the Mecklenburg County Health Department [illegible] described above. The said test was conducted in that portion of the lot [illegible] indicated on the plot plan.

The percolation rate determined [illegible] the test was 0*min/in. The [illegible] approved for the installation of [illegible] septic tank subsurface [illegible] water treatment in conjunction with [illegible] absorption effluent disposal is subject to the following terms and conditions:

1. A permit [illegible] upon receipt by the [illegible] of the Mecklenburg County Health [illegible] and upon the [illegible] system on the [illegible]
2. The [illegible] approved [illegible] which may be [illegible] determined by the Health De[illegible] partment's [illegible] based on the percolation rate [illegible] above and on the size and type of building constructed thereon.
3. This approval [illegible] the system is installed [illegible] and when [illegible] it was run.
4. This approval [illegible] this [illegible] and the [illegible] was [illegible] on the lot which is the subject of this [illegible] Department [illegible] for the [illegible] was [illegible] suitable for the installation [illegible] and/or repair [illegible] this lot.

This approval is granted [illegible] the laws of the State of North Carolina, the rules and regulations of the North Carolina State Board of Health and the Mecklenburg County Board of Health which were in effect on the date of issuance and is void if at any time [illegible] the completion of the system, these laws, rules, and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.

*Results determined by soil analysis.

MAP BOOK NO PAGE NO

The above specified lot is approved by the Mecklenburg County Health Department for the installation of an individual septic tank system with subsurface soil absorption effluent discharge based on the percolation test results which yielded a percolation rate of 60 min/in and an on site inspection of the said lot, and upon the information supplied in the "Application for an Installation, Construction, Alteration and/or Repair Permit" number 7591 . This approval is subject to the following terms and conditions

1. That the nitrification field be installed, constructed, altered, and or repaired in the same area where the percolation test was run
2. That an "Installation, Construction, Alteration and or Repair Permit" be issued and in full force and effect when the system is installed constructed, altred, and/or repaired and that the system be installed in accordance with same

This approval may be revoked and the building inspection department requested to revoke any building permit(s) which have been issued to authorize construction on the said lot if at any time it is determined that any information contained in the "Application for an Installation, Construction, Alteration, and/or Repair Permit" is not correct or is untrue or that the septic tank system is not being installed, constructed, altered and or repaired in accordance with a valid Installation, Construction, Alteration, and/or Repair Permit
