PLOT PLAN Plan

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The soil investigation was conducted on that portion of the lot as indicated on the above plot. PROVISIONALLY SUITABLE

The permeability rate determined by the investigation was . The said lot is approved for the installation of one single family residence with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A permit must be obtained from the Mecklenburg County Department of Environmental Health for the wastewater treatment system on the said lot.
2. The said lot must be graded in accordance with the plans approved by the Mecklenburg County Department of Environmental Health as indicated above, and on the site plan.
3. This approval is valid for two years from the date of system installation or for the above lot.
4. This approval is granted only for the system installation in the lot which is the subject of the Mecklenburg County Department of Environmental Health's report dated as acceptable for system installation at the time of the inspection and under the conditions existing at the time of the inspection.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
