Mint Hill, NC Parcel #14

135-331-44 — Tax Identification Number

Charlotte Mecklenburg Utilities (CMU), a Department of the City of Charlotte (City) will properly abandon the existing well, which means closing the well from any use, and connect the improvement (i.e. house) to the CMU water main with a standard ¾" water service. This work includes the connection of the water service to the house plumbing, at the well, and the installation of a water meter at or near the property line. In addition, where required by NC Plumbing Code, CMU will install a pressure reducing valve immediately adjacent to the water meter inside a plastic water meter box. The pressure reducing valve will be set at a pressure similar to the pressure observed at the well head prior to abandonment of the well. CMU will obtain the proper permits for the well abandonment, the connection of the water service to the house plumbing, installation of the pressure reducing valve and abandonment of the electrical circuit that powers the well pump. CMU will pay all fees associated with the work described above and all the work described above will be completed at no cost to the property owner.

In agreement to this connection to the CMU water system the property owner will complete a CMU Water Service Application and submit it along with this signed agreement. Also, the property owner understands a monthly water bill will be sent by CMU/City to the property owner or tenant at the above-referenced address, whoever agrees to be the customer. This bill amount will be based upon the amount of water that passes through the water meter and calculated utilizing the prevailing CMU water rates. This bill will be required to be paid within the time frame required by CMU/City policies and procedures. If the bill is not paid within the required time frames, the customer will be subject to disconnection. The property owner also agrees to ownership and maintenance of the pressure reducing valve and all other plumbing improvements beyond the CMU water meter. CMU will warranty the plumbing improvements through the plumber for a period of one year.
