APPENDIX H
SITE EVALUATION
(Onsite Absorption System Design)

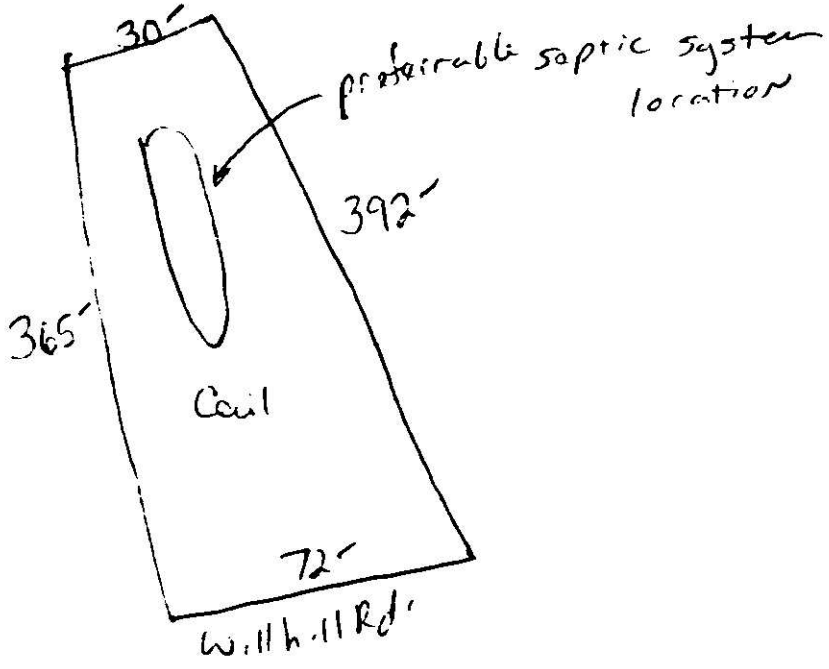

Name: E.R Batey — Date: June 24, 1977
Address: 9411 Brook Cove Lane Hyattsville, Md. — Plat No.:
Builder: MacMar Co. — Lot No.: 617 Acres of 25.0000 Ac.
Location of Site: Willowhill Rd. Lot No 5 Block C
Texlodge No. 137-071-63

FACTORS	AREA 1	AREA 2	AREA 3	Area
1. [illegible]	(S) PS U 3-8%	S PS U	S PS U	S PS U
2. SOIL TEXTURE (12-36 in.) (Sandy, loamy, clayey, [illegible])	S (PS) U clay	S PS U	S PS U	S PS U
3. SOIL STRUCTURE (12-36 in.) (Clayey soils)	S (PS) U Blocky	S PS U	S PS U	S PS U
4. SOIL DEPTH (In.)	(S) PS U >48"	S PS U	S PS U	S PS U
5. RESTRICTIVE HORIZONS (In.) (Impervious Strata, rock)	S PS U ———	S PS U	S PS U	S PS U
6. SOIL DRAINAGE (Groundwater External & Internal)	(S) PS U water table >6'	S PS U	S PS U	S PS U
7. SOIL PERMEABILITY (Percolation Rate)	S (PS) U moderate 60 min/in	S PS U	S PS U	S PS U
8. OTHER (Specify)	S PS U ———	S PS U	S PS U	
9. SOIL CLASSIFICATION*	provisionally suitable			
10. [illegible]	Coastal			

Based on this investigation, the lot was found to have an adequate area of provisionally suitable soils for installation of a septic tank system. System design should be based on a percolation rate of 60 min/in.

PLOT PLAN

This is to certify that a soil investigation was made by the Mecklenburg County Department of Environmental Health on the lot designated as No. 5 . The soil investigation was conducted on that portion of the lot as indicated on the above plat. **Provisionally Suitable** The said lot is approved **60 min/in.** The permeability rate determined by the investigation was for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A system must be installed only after a permit has been issued by the Mecklenburg County Department of Environmental Health and only in accordance with the plans and specifications for the wastewater treatment system on the said lot.
2. The size of the septic tank and absorption area which must be installed will be determined by the Mecklenburg County Department of Environmental Health in accordance with the permeability rate obtained above, and on the size and type of building or structure thereon.
3. This approval is valid for the system as located on the immediate area indicated as acceptable for system installation on the above plat.
4. This approval is based upon soil borings and an evaluation of the soil profile performed on the lot which is the subject of this application by the Mecklenburg County Department of Environmental Health in the area indicated as acceptable for system installation on a suitable lot. Location, construction, alteration and repair of such a system must also meet all applicable rules and regulations.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.

SUBDIVISION Wilson Woods LOT NO 5 BLOCK NO C

PLOT PLAN

This lot was investigated and inspected by the Mecklenburg County Department of Environmental Health on the date shown above. The soil investigation was conducted on that portion of the lot shaded in the above plot plan.

PROVISIONALLY SUITABLE

The permeability rate determined by the investigation was . The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface soil absorption effluent discharge subject to the following terms and conditions:

1. A plan of the proposed system must be submitted to the Mecklenburg County Department of Environmental Health and approved prior to the wastewater treatment system installation.
2. The proposed system must be approved by the Mecklenburg County Department of Environmental Health as to the location of the system on the lot as shown above and on the plot plan submitted.
3. The proposed system must be installed by a licensed septic system installation contractor.
4. The approval is granted based on the findings of the investigation performed on the lot which the plan of the Mecklenburg County Department of Environmental Health has determined to be acceptable for system installation. Any alteration of the lot which changes the findings of the investigation may void this approval.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system these laws, rules and regulations are changed such that this approval would not have been granted had the newer revised laws, rules, and regulations been in effect on the issue date.
