SITE PLAN

Please include on this site plan:

- locations of the existing and proposed facilities;
- existing wastewater systems and repair areas;
- existing and proposed water supplies; and
- easements, rights-of-way, encroachments, artificial drainage, and all appurtenances.

ll the following must be checked for approval:

- [X] No current or past uncorrected malfunction of the system as described in 15A NCAC 18E .1303(a)(2)
- [X] DDF and wastewater strength for the proposed facility or site modification do not exceed that of the existing system
- [X] Proposed facility or site modification meets the setbacks in Section .0600 of 15A NCAC 18E

Approval Conditions: OK For fire pit & grill area. No plumbing

Inspector's Printed Name: April Bumgarner Inspector Certification #: 2505

Inspector's Signature: April Bumgarner Date: 6/30/24

The existing system approval expires one year after the date of issuance.

PLOT PLAN

The undersigned has made an investigation and inspection of the property described above. The investigation was conducted on the lot as indicated in the above plot. The permeability rate determined by the investigation was **Provisionally Suitable**. The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A permit to construct the wastewater treatment system must be obtained from the Mecklenburg County Department of Environmental Health prior to the installation of the wastewater treatment system on the said lot.
2. The type of the septic tank wastewater treatment system which must be installed will be determined by the Mecklenburg County Department of Environmental Health at the time of the issuance of the permit based on the rate obtained above, and on the size and type of building to be served thereon.
3. The approval of this system is valid only for the immediate property and the site specified for system installation on the above plot.
4. The approval of this soil profile is based on the inspection and percolation tests performed on the lot which is the property of the Mecklenburg County Department of Environmental Health. Any lot indicated as acceptable for septic tank installation is unsuitable for any reason for the construction of a septic tank system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules, and regulations been in effect on the issue date.
