PLOT PLAN

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The soil investigation was conducted on that portion of the lot as indicated on the above plan. **Provisionally**

The permeability rate determined by the investigation was **Suitable** The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface soil absorption effluent discharge subject to the following terms and conditions:

A permit must be obtained before proceeding with the installation of the wastewater treatment system on the said lot.

2. The size of the septic tank and wastewater treatment system must be determined by the Mecklenburg County Department of Environmental Health according to the permissible rate obtained above and in the size and type of tank instructed thereon.

3. This approval is valid only for the system installed in the immediate area indicated as acceptable for system installation on the above plat.

4. This approval is void if the loading lines and trenches for the absorption field are not performed on the lot within the limits of the Mecklenburg County Department of Environmental Health under the area indicated as acceptable for system installation in accordance with the requirements of the system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future prior to completion of the system these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.
