PLOT PLAN

This is to certify that a soil investigation was made by the Mecklenburg County Department of Environmental Health on the above described lot. The soil investigation was conducted on that portion of the lot as indicated on the above plot. **Provisionally Suitable**

The permeability rate determined for the subject lot was [illegible]. The said lot is approved for the installation of one individual septic tank wastewater treatment unit with the subsurface soil absorption effluent discharge subject to the following terms and conditions:

1. A permit may be issued for the construction of the system only after the Mecklenburg County Department of Environmental Health has approved the plans for the wastewater treatment unit submitted with the application.
2. The [illegible] absorption area is determined by the Mecklenburg County Department of Environmental Health and is based on the permitted rate obtained above, and on the size and type of unit and fixtures therein.
3. The absorption area for the system must be located in the area indicated acceptable for system installation on the plot plan.
4. The approval is based on the [illegible] and that the percolation tests were performed on the lot which the system is to be installed. The County Department of Environmental Health must be notified when the area indicated as acceptable for system installation is ready for inspection. Failure to notify may result in the rejection of the system.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future prior to completion of the system these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.
