Ms. Alice H. Cauble
5818 Gate Post Road
Charlotte, NC 28211

Dear Ms. Cauble:

At your request a prepreliminary investigation of soils and topography was made on the property on Lawyer and Nelson Road. The purpose of the investigation was to determine site suitability for septic tank systems. A soil map was made and a copy is enclosed.

The area of the map shaded red has soils that have the required depth, aeration, percolation and drainage and are therefore predominantly acceptable for septic tank systems. The remainder of the property does not meet one or more of the above requirements and therefore is predominantly unacceptable for septic tank systems. On this property poor drainage and shallow soils are the problems.

Permits are issued for lots that have been marked off on the property and have been individually tested and found acceptable for septic tank systems.

Sincerely,

W. B. Ramsey
