PLOT PLAN

This is to certify that a soil investigation and on-site investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that date and findings are indicated on the above plot. **Provisionally Suitable**

The permeability rate determined by the investigation was . The said lot is approved for the installation and use of a conventional subsurface wastewater treatment system with subsurface, soil absorption effluent disposal subject to the following terms and conditions:

1. A permit shall be obtained under the provisions of the rules governing the Mecklenburg County Department of Environmental Health before construction of the wastewater treatment system may begin.
2. The size of the septic tank and wastewater treatment system shall be determined by the Mecklenburg County Department of Environmental Health pursuant to the terms of the rate obtained above, and on the design criteria and limitations therein.
3. The approved system must be installed in the exact location and the proposed system installation on the above plot.
4. The approval is granted subject to the condition that the inspection be performed on the lot on which the system is to be installed by the Mecklenburg County Department of Environmental Health and determined and stated as acceptable for system installation before the installation commences. Failure to obtain this inspection shall void this approval.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future, prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.
