Mr. David M. Cooke
2506 Toddville Road
Charlotte, North Carolina 28214

Dear Mr. Cooke:

At your request, an investigation was made of the septic tank system on the property located at 2506 Toddville Road, Charlotte, North Carolina on September 21, 1992.

At the time of the investigation there was no effluent apparent on the surface of the ground.

I am enclosing for your information a copy of our records from previous inspections conducted at this location and also brochures which discuss maintenance of septic systems.

If you have any questions concerning this matter, please contact me at 336-5571.

Sincerely,

Judy J. Kiser, R.S.

Kelly F. Harrington
2506 Toddville Road
Charlotte, N.C. 28214

Dear Mr. Harrington:

At your request I revisited the property located at 2506 Toddville Road, Charlotte, North carolina for the purpose of re-investigating the septic tank system. As I previously indicated to you in my letter dated October 23, 1991, I thought a repair had been made to the nitrification field lines. You responded in a telephone conversation that you had not repaired the system, but had only added soil cover to a low area in the rear of the property. You requested I re-access the system.

Upon revisiting your property I did determine that the soil cover has been added over the nitrification field and appears to extend to the end of the system. At present the house is vacant and the septic system not in use and I do not feel an adequate assessment can be made at this time. A re-investigation may be made approximately sixty (60) days after the re-occupancy if you desire.

If you have any questions concerning this matter you may reach me at 336-5571.

Sincerely,

Judy J. Kiser, R.S.

Kelly F. Harrington
2506 Toddvile Road
Charlotte, N.C. 28214

Dear Mr. Harrington:

At the request of your realty agent, Angela Sherrill an investigation was made of the septic tank system on the property located at 2506 Toddville Road, Charlotte, North Carolina on October 21, 1991.

At the time of the investigation there was no effluent apparent on the surface of the ground; however , there appears to have been a repair made to the system. After researching our records we find no permits have been issued for a repair.

In order to report an accurate history of the system we need to know the details of this repair. Please contact me at 336-5571 between 4:00 and 5:00 p.m. to discuss this situation.

Thank you for your cooperation in this matter.

Sincerely,

Judy J. Kiser R.S.
