PLOT PLAN

This is to certify that a soil investigation and onsite investigation was made by the Mecklenburg County Department of Environmental Health on the lot described above. The said investigation was conducted on that portion of the lot as indicated on the above plot. **PROVISIONALLY SUITABLE**

The permeability rate determined by the investigation was The said lot is approved for the installation of an individual septic tank wastewater treatment system with subsurface, soil absorption effluent discharge subject to the following terms and conditions:

1. A permit must be obtained prior to construction of the wastewater treatment system on this lot.
2. The sewage flow shall not exceed gallons per day as determined by the Mecklenburg County Department of Environmental Health based on the rate obtained above and on the number of bedrooms or units proposed.
3. The system must be installed as shown on the approved site plan. Any deviation from the approved plan must be approved by the Mecklenburg County Department of Environmental Health prior to system installation.
4. The system must be located entirely within the property lines. Any permanent encroachment on the property, such as buildings, swimming pools, paved areas, etc., which would prevent the installation of the system as shown on the approved site plan must be approved by the Mecklenburg County Department of Environmental Health prior to system installation.

This approval is granted based on the laws of the State of North Carolina and the rules and regulations of the North Carolina Department of Human Resources, Division of Health Services and the Mecklenburg County Health Commission which were in effect on the date of issuance and is void if at any time in the future prior to completion of the system, these laws, rules and regulations are changed such that this approval would not have been granted had the new or revised laws, rules and regulations been in effect on the issue date.
